

## AstroIDeluxe Chart Interpretation for George Balanchine

### Introduction

This report from Halloran Software, In The Beginning, draws upon 1354 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

**HOUSES:** Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

**SIGNS:** Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

**ASPECTS:** Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroIDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

**AstroIDeluxe Chart Interpretation for George Balanchine****Planets in Signs and Houses****Cancer Ascendant**

*(The Emotional)*

You may have either a smoothly-round face or furrowed brows, which give you a "pinched" look, but one thing is unmistakable: Your moods! One moment you're all sunshine, and the next, hiding behind mysterious clouds. Perhaps you expect others to know what is "wrong", but not everyone has your insightful gifts. If you sulk too often or too long, you may lose your friends. Try putting the feelings of others first. You may even enjoy the respect it can earn you.

**Sun in Aquarius**

*(Keynote: I KNOW)*

You are optimistic, innovative, philosophical and humane, but are capable of being eccentric, indifferent, rebellious and temperamental. You are motivated by inherent feelings that amount to enlightenment. Your interest in humanity puts you in contact with a variety of people to whom you can relate with equality. Your dispassionate nature confuses those who would form attachments. Like an astronaut, you expect your partners to respect the independence you treasure and permit the freedom your creativity demands. Ideally, you will one day contribute your special gifts to the evolution of man.

## AstroDeluxe Chart Interpretation for George Balanchine

### Sun in the Ninth House

*(The Professor)*

Your thirst for learning extends beyond the classroom. You acquire much of your knowledge from people of different cultures or in foreign lands. You probably have a flair for languages, making you valuable as a translator. It is possible you will earn more than one academic degree, and function as a teacher. One of your most admirable qualities is that, by touching the lives of others, you will come to understand that all men are brothers, separated only by self-imposed restrictions. Share your wisdom to overcome prejudice and the bigotry which impedes the spiritual growth of all.

### Moon in Pisces

*(The Wishful)*

You go with your emotions and change your desires from moment to moment, but are always hopeful for the future. You are sensitive and easily discouraged by rebuffs; your potent imagination makes you susceptible to imagined hurts and slights. You may adopt food or fantasies as a panacea for disappointments in the love and understanding that are as important to you as breathing. Look for solid ground on which to stand. You can build a life that is productive and pleasurable by giving your artistic talents commercial expression to bolster your ego as well as your purse.

### Moon in the Eleventh House

*(The Comrade)*

Childhood hurts make it important to choose good friends with lasting values, and to make and set your goals early. Since you must overcome your obstacles and are people-oriented, you may wish to share what you have learned and enjoy a career as a group counselor. Otherwise, you may feel in exchanging favors that "someone owes you" or you "owe them." True friendship has no price, and cannot be bought, sold or bartered. Learn to give and take freely.

**AstroDeluxe Chart Interpretation for George Balanchine****Mercury in Capricorn**

*(The Logician)*

You are a strategist who employs systematic methods and are seldom upset, unless your plans are disturbed. You communicate with others by getting right to the point with a minimum of wasted effort. Others may consider you sober, self-righteous and too rigid to enjoy life, but what they think of as "rigid", you believe to be structured, "sober" as merely serious, and "self-righteousness" is your pride in accomplishments that you have earned the hard way.

**Mercury in the Eighth House**

*(The Mentalist)*

You will discover early-on that (in your case) "mind over matter" is more than a saying. You have great influence over others, and will find that you, in turn, are greatly impressed by the variety of people who will cross your path. Your interests, provoked by a desire for self-discovery, may range from the occult to psychiatry. Use what you find to improve yourself as a useful human being, willing to share your store of knowledge with your fellow man.

**Venus in Sagittarius**

*(The Escape-artist)*

Your interests are so varied that it is hard for you to be content with "one" of anything. You love to travel, so may have two places you call "home." You need challenge and are easily bored, so can hold two jobs at the same time. You are capable of loving more than one person, also, and will devise excuses to delay a commitment. If you do settle down, your partner must accept your continued need for freedom and your sometimes-careless handling of money!

**Venus in the Sixth House**

*(The Potter)*

Money may be fairly easy for you to earn, but you will have to suppress a desire to spend it as quickly as you receive your paycheck. You'll be popular with co-workers and your employers and have a talent of making the best out of even-undesirable work environs. Your attitude is that of a potter, intent, not on the wet clay on his hands, but on the beautiful object he will produce through patience, effort and understanding of the shape he is molding.

**AstroDeluxe Chart Interpretation for George Balanchine****Mars in Pisces**

*(The Indeterminate)*

You put much of your energy into working for social reforms or human rights. While you are unusually focused in your endeavors, you give little thought to personal needs. You will do better for others if your life is in balance. Ambivalence, indecision, procrastination and duality create conflicts that need revision and structure. Acknowledge your value and allow yourself freedom to grow as a reward for the charity you so generously extend to others.

**Mars in the Tenth House**

*(The Climber)*

You are determined to reach the top through your own efforts, and are probably capable of doing so. Almost nothing can stop you, once you set your course, and you will attract admirers to assist your efforts. Because of your strong ego-drive, you may also invite power plays with authority figures. A careful look at who you are dealing with and an examination of different views can resolve conflicts and forestall what may be irreparable damage to your dreams of glory.

**Jupiter in Pisces**

*(The Benevolent)*

No sacrifice is too great for you to make to help someone in need. But, you are extremely impressionable, and must be careful not to absorb and experience the ills of others as your own. Whether you receive the same compassion you give is immaterial. You serve cheerfully and derive your greatest satisfaction from seeing the positive results of your efforts.

**Jupiter in the Eleventh House**

*(The Faithful Friend)*

It is not by accident that you have many friends, for you are as loyal and supportive as they are. You are active socially and many of the events you attend will be charitable in nature. You extend your own expectations through contacts with others. While you seldom ask for rewards, you often receive more than you give.

**AstroDeluxe Chart Interpretation for George Balanchine****Saturn in Aquarius**

*(The Apprentice)*

You are a student of the universe and will explore different avenues, while attracting a variety of friends. Many of these will be with you for your lifetime of discovery. You will delve into both orthodox and progressive values before adapting them to your own original purposes. Your findings may have intrinsic worth in your later years. Don't discount their significance. A master is no less a master because he must adhere to a need for creature comforts.

**Saturn in the Ninth House**

*(The Thinker)*

You probably have the self-confidence usually born of long experience, no matter your age. Your powers of concentration enable you to absorb the essentials of life in great chunks. A career in law may satisfy your sense of justice. However, inherent knowledge may preclude the experience to utilize it. If your viewpoint seems narrow, look for ways to augment it. Like the Bluebird, you may find them waiting in your own back yard.

**Uranus in Sagittarius**

*(The Diviner)*

You are amazingly accurate in forecasting events or circumstances that come about. You have a good grasp of logic, so are unlikely to exceed your gifts, but use them to research areas that may contribute to the future of mankind. You are unconventional in your beliefs, fearless in your concepts, and may adopt philosophy rather than religion as a guideline. You should introduce prudence into your restless nature to create wisdom you may share with others.

**Uranus in the Sixth House**

*(The Job-hopper)*

You may waste time jumping from job to job as you search for one compatible with your personality. You resent subjugation by conditions or the will of others. If you "make do" for the sake of a paycheck, nervous conditions may result because of repressed energy. You will be happiest with work that allows you flexibility and an opportunity to do things your way. If that is impossible, at least try to "get away from it all" when away from your work environment.

**AstroDeluxe Chart Interpretation for George Balanchine****Neptune in Cancer**

*(The Illusionist)*

Hope borders on fantasy, as you imagine a utopian world in which all is spirit, minus the foibles of mankind. A mother-figure may instill a reverence for the forces of nature. Avoid indulging in drugs or other hallucinatory substances for escaping reality, though your sensitivities may be violated by conditions. Trying to wish them away is not a solution. Contribute your remarkable talents as peacemaker to establish a world in balance with opportunities for all to enjoy.

**Neptune in the First House**

*(The Dreamer)*

Your wonderful imagination can take you far in a career or work against you, personally. Idealistic by nature, you are easily led into situations that have little or no value, or you may guide others erroneously. You are self-effacing and often self-sacrificing since it is hard to turn away those who ask your help. Unusual childhood experiences should convince you to take a second look at life before plunging headlong into spaces that even angels may avoid.

**Pluto in Gemini**

*(The Articulate)*

Your gifts of mental agility and vocal expression fit you as an interpreter of the times. As you observe and relate your findings, you must become involved in the challenges of your generation. You may be politically active or use journalistic talents to report the progress of or need for social reform. If you neglect your opportunities, you will become unsettled and restless, a rudderless ship traveling in circles toward a destination you fail to recognize.

**Pluto in the Twelfth House**

*(The Intellectual)*

You tend to rationalize hidden feelings that prompt you to embark on programs of self-analysis, when you should go with an urge to seek the advice of someone in whom you can confide your secret thoughts. Otherwise, without a productive way to vent the tremendous powers of your subconscious mind, you may encounter serious difficulties which will damage and inhibit your gift of using "mind over matter" to solve your problems and help others who need your support.

## AstroDeluxe Chart Interpretation for George Balanchine

### **Aquarius Midheaven**

You will flourish best in a career that takes advantage of your inventiveness and originality. You have a need to be unconventional and different. You see your career field from a refreshingly independent perspective and make original contributions. You don't like working in a highly structured environment, so you often work as an independent free-lancer. Driven to follow your inner light, others can consider your interests eccentric; you may treat them rudely. But at your healthiest, you are also a humanitarian who contributes to civic causes and whose many career contacts make you an effective networker.

Your career can be based on ideas or on service to society. To achieve your greatest success, you must dare to be your true, unique self. More than others, you understand Joseph Campbell's advice, "follow your bliss." Working out your ideas on your own, you can produce results that will benefit humanity. Pitfalls to be overcome include selfishness, pride, and the desire for power. You may originate numerous ideas, but forget them soon after conception. Scientific objectivity carried to the extreme could make you cold, impersonal, or arrogant. Do not allow yourself to become isolated, but stay in touch with those on whose behalf you are laboring.

Occupations consistent with your unusual, independent style of work include entertainer, literary personality, athlete, educator, inventor, occultist, astrologer, social worker, social scientist, vocational counselor, personnel specialist, benevolent or fraternal society administrator, conference organizer, or strategist. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of Uranus, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

### **North Node in Libra**

*(The Selfless)*

You will not understand why others are promoted while you are passed by. You must change an attitude that the world revolves around you. Jealousy or resentment depletes your strength which should be used, not for your purposes alone, but to do for others what they cannot do. You will acquire the stature you long for by balancing your needs with others.

### **North Node in the Fifth House**

*(The Princess)*

Like the lady in the tower, awaiting rescue, all you need do is open your eyes to see a staircase. You prefer fantasies to the workaday world. Learn what is real and of lasting value. Acquire

## AstroDeluxe Chart Interpretation for George Balanchine

self-discipline to become a "doer." You have the power to make your dreams come true, but cannot expect them to manifest before taking your first steps into reality.

### Chiron in Capricorn

*Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.*

This Chiron placement puts a lot of pressure on you to become an adult while you are still a child. You feel strongly the limits that circumscribe your life. The final goal of your efforts is to get to a state of greater freedom. A strong Chiron in Capricorn makes you defensive, tough, and controlled. These qualities stand you in good stead in the world of business. You also know human nature and are not naive. Chiron here gives you a sense of connectedness with the rest of society, so that you could end up becoming a compassionate philanthropist, one who wants to make the world a better place, in which no one is left out or left behind. You do not limit yourself to the small world of the home -- you are aware of and you get involved with the larger public world.

### Chiron in the Eighth House

Increased consciousness will come through problems involving sex, death, physical fitness, financial affairs, childbirth, and very basic facts of life. With this house's emphasis on the body, you could be an athlete, dancer, stuntman, martial artist, or a mime. You have physical and vocal power. You project a captivating intensity. You rely heavily on instinct and intuition. You could be interested in health food and conscientious about working out to stay in shape.

**AstroDeluxe Chart Interpretation for George Balanchine****Planets in Aspect****Neptune conjunct Ascendant (Strength: 8.65)**

This is an aspect of intelligence. It also makes you more likely to be psychic, slender, vegetarian, enthusiastic, a fighter, to appear on radio or television, and to have spiritual experiences. You are a stubborn perfectionist who sticks with a job. You can become a professional dancer. You can earn a law degree or have a professional career as an architect. After putting in the diligent years necessary to master the craft of painting, an artist with this conjunction produced works that were lush and joyful. He cultivated wealthy clients using his kind and congenial personality. It is only possible to come close to perfection, not to achieve it, so you must also be kind to yourself. You tend to be a fitness enthusiast. At some point your idealistic ambitions must run up against the limitations of the real world. Other frequent occupations can include therapist, musician, politician, athlete, singer, and actor.

**Sun trine North Node (Strength: 7.38)**

This aspect tends to make you an inventive, energetic person. You start life with an optimistic confidence, attacking life in a positive way. Your productivity is high. You could be self-taught. You have a force that does not allow you to be overlooked. You can shine a light on dark or mysterious matters.

**Mars trine Neptune (Strength: 6.28)**

You could have been born to an advantaged background. This is an aspect of intelligence, merit, wealth, and fathering several children. You can be a man of action - an adventurer, explorer, outdoorsman, or law enforcement professional. The aspect is found particularly among architects, writers, poets, scientists, engineers, politicians, military professionals, and entrepreneurs. Flaws can include being overly competitive, fraudulent claims or behavior, attraction to conspiracy theories, and alcoholism. You have a tendency to think and act independently, disregarding authority or rules that you consider stupid, which can make you a pioneer or leader. There can be talent for research, map-making, psychology, music, mathematics, and the law.

**Pluto trine BlackMoon (Strength: 6.13)**

This aspect combines a can-do attitude with a warmth of personality and bonhomie. You are very creative and able to think outside the box, which enables you to quickly come up with highly effective if unorthodox solutions and techniques. It is possible that the techniques that

## **AstroDeluxe Chart Interpretation for George Balanchine**

work so effectively for you will not work for most people, so you can be kind of a phenomenon as opposed to a teacher who can pass on what he has learned. With this aspect, you will probably start developing your talents at an early age. You can be self-educated. Perhaps because of your early talent you have good luck finding people who will help and pay you. Your technical ability and your willingness to display it can bring you much positive attention. The planet Pluto exposes you to stark reality, so with this aspect in your chart you are at risk for alcohol abuse, depression, prison time, family trauma, and divorce. The flip side is that many comedians with humorous personalities have this aspect. You could work as a computer expert, as an agent of the law, or as a coach. In your personal life there can be a danger of over-confident rule-breaking, which can lead to legal, financial, and marital difficulties. This is especially likely once you have achieved your goals. You can then become unfocused and lackadaisical. New environments and challenges can be beneficial because they help you to rise to your full height. Artists with this aspect are capable of creating true beauty. You will probably embrace the challenges and potential of new technology. You could be on the forefront of adopting energy-efficient ways to live and co-exist on a healthy planet. You can lend your time and talents to philanthropic and environmental causes.

### **Chiron parallel BlackMoon (Strength: 6.08)**

This aspect can make you exceptional at whatever you choose to do. You tend to have an imperturbable nature and the ability to work quickly. It may seem that the rest of the world is in slow motion; in reality, your intensity causes your mind to input faster. It is in your nature to be the best. You could set records. Your thinking is positive. You tend to be flexible, enthusiastic, and fearless. You can challenge yourself in completely new and different areas. You can do things that are almost without precedent. You tend to look for things that have not yet been done, but which you think could be done. You can take what you have learned in one field and apply it to a different field. Boundaries tend not to exist for you. A filmmaker with this aspect is described by a biographer as part scientist and part artist. You could free your field from archaic forms and conventions. This aspect is so positive that, of the 22 researched vocations, murder and alcohol fall to the very bottom of its frequency list. Artist/painter, businessman, athlete, astrologer, musician, and engineer are at the top of the list.

### **Moon conjunct Jupiter (Strength: 5.60)**

*(The Equipollent)*

You have a strong conviction that what you put into something will be returned in equal measure. In most cases you are right, and since you project confidence, enthusiasm, nurturing and good will, that is what you attract. However, you must avoid temptations to acquire "too much of a good thing." You are, by nature, given to excesses. Don't allow your optimism to lure you with empty hopes and promises into depths beyond your reach and over your head.

**AstroDeluxe Chart Interpretation for George Balanchine****Saturn conjunct Midheaven (Strength: 5.54)**

*(The Award)*

It may take you some time to get where you're going, but your hard work and perseverance will pay off. Lay your plans carefully. Achievement of your goals has nothing to do with "luck." Do not alienate yourself from those who care for you and are willing to follow your lead. You need their support. You tend to be inflexible, but be prepared to restructure your thinking. As a realist, you should allow enough margin for error to absorb the revisions that assure your success.

**Midheaven contraparallel East Point (Strength: 5.35)**

With this aspect you tend to have a lot of responsibility. Others can select you for responsible positions or roles. You can serve as an intermediary, bringing people together. Frequent vocations with this aspect include computer programmer, musician, writer, engineer, healer, and lawyer.

You are a naturally thoughtful person to whom innovative and well-crafted work comes easily. Your work can successfully draw from many sources. You appear to excel at collaborating with a variety of people whom you respect. You are not rigid but have the flexibility to precisely match your work to its purpose. This aspect is just like the semi-square in having Disciplined at the bottom of the list. Although many athletic champions and successful dancers have this aspect, you are more likely to be a spiritual healer, vegetarian, and astrologer than you are a competitive Wall Street type of guy. You could find that working for a bureaucracy does not give you the degree of freedom that you need in order to realize this aspect's full potential. Many adventurous explorers, pilots, social activists, critics, physicists, engineers, radio/television hosts, and music composers have this aspect. You might have to work a day job while pursuing a love of music, poetry, acting, writing, or astrology on the side. Try offering loyal support to one or more of your heroes. Through connections you may gradually achieve the freedom to realize your dreams. You try to stay aware of new developments in modern knowledge and technology. Many inventive pioneers have this aspect. You can think a lot about spiritual matters. You will probably investigate more than just one religion or philosophy.

**AstroIDeluxe Chart Interpretation for George Balanchine****Venus square Jupiter (Strength: 4.93)**

*(The Spoiler)*

Your tendency to exaggerate may be your downfall. You may confuse wishing with attaining and neglect a proper foundation for rewards. You are fond of social activities, but find it hard to resist temptations of the flesh, so may overindulge in foods that are too rich or drinks that are too potent. It is hard to discourage you. You are forever optimistic and in such good spirits that it would take a heart of stone to try to bring you down or ruin your day.

**Ascendant square North Node (Strength: 4.72)**

This aspect makes you a strong, feisty, high-energy individual. It is possible that you do not need much sleep. You could be thrilled by the excitement and danger of being on the cutting edge.

**Moon square Venus (Strength: 4.52)**

*(The Impassioned)*

You are intent on romance, but may be too fervent to realize you are over-protective or possessive of your loved-one. If you do not have a relationship, you will feel out of balance until you attract a partner, and will make every effort to do so. Your feelings may stem from a parent-child affinity if you are sentimental about the marriage of your parents. Be sure you are acting from real love more than sentiment or need if you consider entering a commitment.

**Venus opposite Pluto (Strength: 4.51)**

With this aspect, you tend to be sociable and flirtatious. You are probably unpretentious, with an impish sense of humor. Depending on how exact this aspect is, you could father four or more children. There is an increased likelihood of family trauma, which could fuel alcohol use. You could work in an occupation in which you see many people, such as pilot, astrologer, or lawyer. You have a high energy level and seem to crave variety in your life and career. A meticulous and avant-garde approach to your work could make you successful. This aspect increases the likelihood of disease from risky sexual behavior.

After knocking around for a while, experiencing life, or experimenting in your field, you could have plenty to say. What you have to say may seem controversial, but the world needs the benefit of your refreshing candor and knowledge. This aspect increases the possibility that you will be shocked by a sudden event in your life.

### **Moon sextile Chiron (Strength: 3.59)**

This aspect links inner self (Moon) with growth (Chiron) in a constructive way. You have a great interest in human nature. You can be successful in dealing with the public -- the aspect gives you insight into the mind of the public, knowing how people think and what they want. Many occupations can draw upon this talent, from entertainment producer to law and politics. You could be successful as a therapist, such as a psychiatrist. You are probably close to your mother, who especially benefits you. You may have experienced a painful event in childhood. If your life is not working, an illness could mark the turning point, giving you a new perspective. You can benefit from collaboration and from advice, especially before making legal decisions. You have a good reputation for integrity. A U.S. President with this aspect said, "At the basis of all prosperity... lies the improvement of the intellectual and moral condition of the people." You will work to empower the average person. You could maintain an independent lifestyle that some describe as eccentric. ### **Jupiter square Pluto (Strength: 3.44)**

This aspect gives you a robust personality. It drives you to rise within society. You have endurance, strength, and power. Jupiter is about learning from life and experience and Pluto is about concentration, focus, and innovation. This aspect is often found in the charts of lawmen,

## **AstroDeluxe Chart Interpretation for George Balanchine**

politicians, lawyers, activists, writers, and adventurers. It gives you courage. The negative manifestation is that this aspect is also found in the charts of criminals, prisoners, crime victims, family trauma victims, and alcohol abusers. It is rarely found in the charts of computer programmers, astrologers, or psychologists. It makes you a social player, not an observer. You can spearhead reforms. You can feel uniquely driven, compared to the average man, which can result in some lonely periods. Songwriter Leonard Cohen suffered from depression, but he managed to find solace in Zen Buddhism. Politician Morris K. Udall kept notebooks of humorous gags, anecdotes, and one-liners. The lesson is that when the world disappoints you, you may work on achieving spiritual growth and perspective.

### **Moon square Pluto (Strength: 3.04)**

This aspect makes you the sentimental and nurturing type, one who cares about people. You could belong to a family that shares your intellectual interests. You can be a gracious social networker. You could have a flair for drama, publicity, and promotion. You are likely to be highly creative with good stamina. You may feel driven to create, as if you do not have a choice in the matter. You can really be engaged in a quest for self-discovery when you are in the process of artistic creation. Such a personal quest finds the most truth when free of limits, with no concessions made to convention or morality. You have the gift of honesty and seeing through the bullshit. You should have a strong sex drive. Much of your life may be devoted to feeling cut-off and isolated, with your work designed to bridge that gap and achieve belonging and connection with others.

**AstroDeluxe Chart Interpretation for George Balanchine****Balance of Elements and Modalities****Abundant Water**

In your case, the heart rules the head. Your emotional drives are strong and you act primarily on the basis of your feelings. Whether your feelings are purely personal, interpersonal, or transpersonal is up to you, but generally you are a life-oriented person who feels keenly and who acts to support your family, friends, and community. You are happiest when you are in a caring relationship with a significant other. That person should be comfortable with the emotional closeness that you bring to relationships, while providing the structure or inspiration that you need. Some of your friends will not be as comfortable with emotional closeness as you are, and you will have to respect their boundaries. You have probably learned over the years how to keep your sensitive nature from being hurt. Don't permanently withdraw, but find the people with whom and the environment in which you can be yourself.

Because of your sensitivity, you easily pick up others' thoughts and feelings. You can anticipate others' needs before they have expressed them. You can usually rely on your intuition when it comes to forecasting the outcome of personal and career decisions. If you decide to use your psychic abilities for healing, learn to let go of the negative feelings that you process from others. Since you are so sensitive, find quiet moments for private introspection in which you can reconnect with what you feel instead of what others feel. You also find it revitalizing to be around large bodies of water.

You do have a need to stop and think things through before acting. Make the effort to communicate with others who may have a more objective viewpoint or who could see solutions that elude you. You can sometimes be criticized for acting from a purely personal perspective, which you could avoid by learning and respecting society's larger viewpoint. You can be very creative in finding paths to your personal goals. Keep the larger viewpoint in mind and later you will not have to try to rationalize to others why you chose those paths.

**Abundant Air**

You seem to live for mental exploration. Discovering and communicating the connections between ideas, people, and places is your function in life. Your active mind is good at identifying new frontiers whose basics you quickly master, so that you end up knowing something about almost everything. You have a dispassionate nature that coolly considers the pros and cons of a situation, able to place logic above personal emotion. From your mental viewpoint, emotions look irrational. You make a good negotiator, sales person, communicator, arbitrator, analyst, and information processor. Ideas flow quickly for you. While impersonal and dispassionate, you nonetheless thrive on communication and social interaction. At your best, you

strive to understand and accept people, not to change them. Courageously, you adhere to principles. You appreciate culture, structure, and systems.

Your greatest strength is also your weakness, namely too much coolness from placing head above heart. Leaders must be able to follow their hearts without being indecisive or equivocating. And you ignore your real connection to others if you use your mental gifts to coldly manipulate them. Try to avoid isolation by functioning as part of a team in which your logic, analysis, and communication skills are put to good use. Work with others who may be more practical, sensitive, or passionate than are you. Don't keep your good ideas inside, but write them down and communicate them to others.

### **Lack of Earth**

You may be so focused on the "bigger picture" that you have difficulty managing the many details of life. Balancing your checkbook or leaving your bedroom clean may seem beyond your abilities. Other tasks may be important, but you find it hard to concentrate long enough to complete them. Knowing your own lack of concentration and self-discipline, you may cling to established routines because you know that you are able to do important things through force of habit. If you do not flit from job to job, you could hold onto a job or a relationship for too long because you do not trust that you will be secure without it. Your lack of real world perspective may make it hard for you to distinguish that which really matters from that which is unimportant, so that you sometimes focus on small things while leaving the really big things undone. You may say that you care about money, but unless you have abundant planets in the houses of Substance, you will not execute a detailed plan to get it. If you can avoid driving them crazy, enlist the help of those more grounded than yourself in order to turn your inspirations into reality.

A lack of planets in Earth signs can be offset by an Earth sign ascendant or by abundant planets in the houses of Substance.

### **Lack of Fire**

You are willing to let flashier individuals take center-stage and lead the way. You are probably unenthusiastic about change and are passive when it comes to creating change through leadership. You may be aggressive in a defensive way, but lack the self-confidence to take the offensive. Lacking the impulsiveness of Fire, you are more likely to be a careful worker and a reliable mate, though you could stand to be less detached and more personally involved with your spouse and family.

A lack of planets in Fire signs can be offset by a Fire sign ascendant or by abundant planets in the houses of Life.

### **Abundant Life**

Abundant planets in the houses of life gives you both the energy and the urge to create the future. By your activities, you make the world a better place. You may be somewhat self-centered, but with your crusading spirit you move the world towards the ideals that you envision.

### **Lack of Endings**

You live on the surface of things, afraid to look within at what you really feel and want. Perhaps your position is too precarious or the obligations too great to allow yourself this luxury. You feel forced to maintain your personal status quo. You come across to others as unfeeling. Because personal feelings do not distract you, you might make a good scientist, though be aware that the greatest scientists let intuitive feelings be their guide.

A lack of planets in the houses of Endings can be offset by abundant planets in Water signs.

### **Abundant Mutable**

With an abundance of planets in Mutable signs, you adapt easily to changing circumstances. Mentally quick, you adapt like a chameleon to give each what they want, until you are on to the next friend or interest. Life offers a succession of roles to play. Skilled at diplomacy and compromise, you make a good negotiator and appear to be everyone's friend. You actually are other-oriented, rather than self-oriented, and can be so busy meeting others' needs that you lack direction in your own life. Concentrate on finding friends of true worth and value. Be discriminating in your associations, in whom you choose to help. The endless flow from your mind, tongue, and hands will then work to return real value to you, which is what you deserve. You can probably only follow this advice just so far, though, because more than others the Universe sends you people in need, people for whom you are able to make a real difference. The assistance that you provide to the powerless may actually be remembered long after your facile mental output is forgotten. Your activities can also bring an end to institutions that have outlived their usefulness.

### **Abundant Cadent**

An abundance of planets in the cadent houses helps to make you versatile and adaptable. You are flexible in your plans, adapting easily to changes or to the people whom you meet. You may travel a lot or move frequently. You are a good listener and communicator. You will use your mind a lot or frequently spend time alone during your life.
