

## AstroIDeluxe Chart Interpretation for George Washington

### Introduction

This report from Halloran Software, In The Beginning, draws upon 1354 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

**HOUSES:** Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

**SIGNS:** Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

**ASPECTS:** Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroIDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

**AstroIDeluxe Chart Interpretation for George Washington****Planets in Signs and Houses****Taurus Ascendant**

*(The Steadfast)*

There is a look of substance about you. Others admire your thick hair, which may be curly or wavy. Though slow to anger, you may use force to defend yourself when aroused. You are resolutely stubborn, and generous beyond your means, to the point of being foolish. Others value your friendship and you are a welcome guest. You would rather be a "boss" than an employee, but will always give your best to a job, because you don't know how to do anything "half-way."

**Sun in Pisces**

*(Keynote: I BELIEVE)*

You are intuitive, sympathetic, kind and romantic. You can be insecure, changeable, deceitful and moody. Your ambitions often prod you into an early success. You dislike working in controlled environments and have an active imagination that can work for or against you. You can create problems by being indecisive or unreliable. Use logic over emotion when your overwhelming compassion for others indicates personal sacrifice. You are blessed with spiritual insight, inviting you to live life fully and not on the fringes. Your faith in "tomorrow" will help you to do so.

**AstroDeluxe Chart Interpretation for George Washington****Sun in the Eleventh House**

*(The People-pleaser)*

You are everybody's friend, but not always a friend to everybody. You often value friendship above love and may choose to keep your friends for a lifetime. Quick to bond, you may be equally quick to separate from a relationship when it appears you have nothing in common. You will doubtless find a place in a variety of social and service clubs, and hold more than one office. You adapt easily and fit into almost any group because you know how to get the most out of a situation, refuse to compromise your ideals, and maintain harmony by finding values to which all can relate.

**Moon in Capricorn**

*(The Notorious)*

You are usually cautious and realistically-discerning, but your ambition could place you in an unfavorable light if you are not entirely above-board in your dealings. The same self-assurance and executive ability that can bring you the prominence you desire can also attract the envy of others who would destroy your chances of fame. You appear to be austere, emotionless and calculating, and should develop lighter moods that allow your priceless sense of humor to emerge and make you seem more in sync with your peers. To be a leader of people, you must first let them see that you are one of them.

**Moon in the Ninth House**

*(The Wanderer)*

You are old beyond your years, so may find school a bore. When you exercise a talent for writing about foreign lands or ancient history, it is almost as if you had lived there in another time. Your dreams seem more mind-recall than fantasy. You may travel the globe in search of higher learning, but an inherent restlessness makes it difficult for you to stay very long in one place because you are forever eager to get on with your own evolvment.

## AstroIDeluxe Chart Interpretation for George Washington

### **Mercury in Aquarius**

*(The Capricious)*

You may have the inventive qualities of an Edison or an Einstein, but instead of being an "egghead" may end with "egg on your face." You look towards tomorrow, but seldom at yesterday, where you might profit from experience. You are often seen as "unfeeling" because you neglect loved ones in taking the freedom to be a friend to others. Include those closest to you in your aspirations. They admire your unusual gifts and offer the support you need for success.

### **Mercury in the Tenth House**

*(The Reporter)*

You are almost certain to try for a career in journalism or another form of communication. Seldom at a loss for words, you can present yourself or others in a flattering light. You may represent a celebrity or politician, or even become a public figure, yourself. Your restlessness and a need for constant change may be seen as "job-hopping," so a career permitting you independence and the flexibility you need will allow you to give your best to all concerned.

### **Venus in Pisces**

*(The Compassionate)*

You often realize the needs of others before they ask your help and are on hand to volunteer your time, money and services for those less fortunate than yourself. Emotions overrule your practicality in most cases and sentimental compassion may override personal relationships. If you are "unlucky" in love, perhaps you should not sacrifice it on the altar of public charity, but also acknowledge the needs of those who care for you and deserve consideration.

### **Venus in the Eleventh House**

*(The Organizer)*

You are at your best working with groups of people and enjoy seeing that things go smoothly in meetings or social functions. As a committee head, you see both sides of every question so can arbitrate disagreements and keep peace in the ranks. As a fund-raiser, you are without equal. However, you may spend as much or more than you take in because of your determination that when you are in charge, everything will be the best and everyone will have a good time.

**AstroIDeluxe Chart Interpretation for George Washington****Mars in Scorpio**

*(The Excessive)*

Many are attracted to your powerful magnetism, but may be frightened by the intensity with which you approach life in general and your desires in particular. You are in touch with your emotions, and may be governed by them so need discipline to succeed. You live on a grandiose scale. Everything is magnified by ten-plus and receives the full force of your energy until you are satisfied with your achievements. You are an unrelenting foe and the most magnanimous of friends.

**Mars in the Seventh House**

*(The Boss)*

You will always walk a fine line between being the strongest of partners, or an arrogant bully. You carry a chip on your shoulder and make few efforts to hide it, preferring open conflict to hidden resentments. You attract those who stimulate your lightning mind and back your decisions. Together you may accomplish more than you can alone, but will be productive only if you find a personal solution to an irresistible force meeting an immovable object.

**Jupiter in Libra**

*(The Goddess)*

Use your fairy gifts of beauty, charm, and grace wisely. Your artistic talents may bring you a prominent place in the public eye. Partners are all-important. You extend yourself to assure that you are worthy of them. You may fulfill your dearest wish that the world will be a happier place and its citizens find contentment because you have walked among them.

**Jupiter in the Sixth House**

*(The Co-worker)*

People willingly work with you. You are a good worker, and make working conditions as pleasant as possible. You enjoy working in comfortable surroundings, and your jobs are personally gratifying. You may wish to socialize with your fellows, but too many lunches encourage a temptation to overindulge, with a result of unwanted pounds and inches.

## AstroIDeluxe Chart Interpretation for George Washington

### **Saturn in Aries**

#### *(The Repressed)*

You may fight against restrictions imposed upon you, but if you insist on doing things "your" way, you will find stumbling blocks in your path and doors that should open will close. Patience and forbearance will enforce the discipline to climb to the heights you struggle to gain. In later years, you will receive the rewards you desire now. Your solid foundations will last long after you have passed the frustration it took to achieve your purpose.

### **Saturn in the Twelfth House**

#### *(The Shadow)*

You may sense that "something" is following you--that things are left unfinished for you to complete. It may be that you ARE responsible for some of your problems, but your attitude may account for much of your frustration. Though you feel like isolating yourself, you are leaving a gap by doing so. Fill it with a resolve to come out of yourself to view the world around you, as others see it. It is indeed a beautiful place to live.

### **Uranus in Sagittarius**

#### *(The Diviner)*

You are amazingly accurate in forecasting events or circumstances that come about. You have a good grasp of logic, so are unlikely to exceed your gifts, but use them to research areas that may contribute to the future of mankind. You are unconventional in your beliefs, fearless in your concepts, and may adopt philosophy rather than religion as a guideline. You should introduce prudence into your restless nature to create wisdom you may share with others.

### **Uranus in the Seventh House**

#### *(The Dancer)*

You attract unusual partners. Like a child at a masquerade ball, you frolic through relationships, sometimes ignoring commitments. Circumstances in which you enter your associations will be in constant flux, requiring you to cope and mature. You may feel helpless to do so. Then, rely on past experiences to guide you. Apply success patterns to present circumstances, or, if you have been unsuccessful in the past, try to correct your actions.

**AstroIDeluxe Chart Interpretation for George Washington****Neptune in Gemini***(The Suspicious)*

You are extremely impressionable, but may not trust your intuitive feelings and believe that others try to deceive you. Use your active imagination in a positive manner. Pay attention to dreams that seem to be precognitive. "There is nothing to fear but fear itself." With your ability to make friends and your gifts of communication, you should be able to "talk" your problems away and find the proper counsel to help you distinguish between fact and fantasy.

**Neptune in the First House***(The Dreamer)*

Your wonderful imagination can take you far in a career or work against you, personally. Idealistic by nature, you are easily led into situations that have little or no value, or you may guide others erroneously. You are self-effacing and often self-sacrificing since it is hard to turn away those who ask your help. Unusual childhood experiences should convince you to take a second look at life before plunging headlong into spaces that even angels may avoid.

**Pluto in Libra***(The Rational)*

As peacemaker, it is second-nature to act as liaison in fostering partnerships that contribute to world-harmony. Your high intellect and demand for justice may place you in public service where you can aid worthy causes by your involvement. Your love of truth may influence big business, where deceit will be overcome with honor. On an individual level, all this may be accomplished by setting an example through the simple amenities you practice every day.

**Pluto in the Sixth House***(The Alarmist)*

By developing a practical fitness regime early, you may allay your fears that your health will undermine your plans for the future. Resist impulses to follow fads that promise much and deliver little. Also, avoid the tension of seeing yourself at your job in the extreme, as either threatened or indispensable. Otherwise, you may work unnecessarily hard to prevent losing what you have gained. Moderation in all things should insure you a long and productive life.

## AstroIDeluxe Chart Interpretation for George Washington

### Capricorn Midheaven

You should find a career that takes advantage of your organizational ability. You work pragmatically and consistently, and pay attention to the little things that make a difference. You are very responsible in your career, displaying a high sense of duty. You are ambitious, but are willing to carry a large share of the load on your way to the top. Furthermore, you are not just a maintainer of the status quo or a reactor to events, but see in a clear-eyed way what needs to be done and will initiate action on your own.

Your choice of career typically displays an acknowledgement of financial and material realities. It may not be flashy, but it is secure and worthwhile. During your life, your patience may be tested by periods of loneliness, poor health, hard work, poverty, or problems with your marriage, children or aged dependents. You may feel that your road has been a lonely one without much assistance. If you give way to melancholy, you may become passive about your lot and suspiciously distrustful even of your friends. Alternately, stress can cause you to become cynical and ruthless. However, your greatest success will come in those areas where through long, hard work you complete tasks that others do not even attempt.

Occupations consistent with your material, ambitious style of work include executive, builder, real estate or agriculture worker, stockbroker, administrator, civil servant, computer scientist, academic, engineer, photographer, doctor, biologist, chemist, miner, metallurgist, or prolific author. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of Saturn, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

### North Node in Sagittarius

*(The Fence Sitter)*

You are afraid to make choices that may put you in the wrong. Until you voice an opinion or convictions that are yours alone, you will not have earned the independence you desire. Experience teaches that conflict often results from indifference. Restore others' confidence by repairing breaks in links of faith with the solder of concern and wisdom.

### North Node in the Eighth House

*(The Driver)*

You may try to CONTROL rather than to guide or manage. You take setbacks as much to heart as triumphs. Your obsessive passions have another side to them. Using unselfishness and tolerance instead of jealousy and greed can unravel the tangles of your life so that the yarn is again clean, straight and ready for a new and more delicate weaving.

## AstroDeluxe Chart Interpretation for George Washington

### Chiron in Aries

*Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.*

You may start life unsure of who you are, wondering about your identity, but you can be anything that you want to be. You have a low-key but competitive personality that will carry you far. You recognize that, while you have to be natural, you also have to be different. The result is that you have a distinct and precise style. You have a trick of getting the maximum of attention with a minimum of fuss. You are a hard worker, but you follow your own path and tend not to observe old-fashioned rules. If your initial career efforts do not pay off, you will adapt and try something else. A strong Chiron with favorable aspects makes it likely that you will be athletic and competitive. With inharmonious aspects, you could be a reformer. You could identify a career in your teen years, only to be blocked from immediately pursuing it. A health-related matter could boost your career. More than most people, you learn the possible ways that you can be from the different mentors and partners whom you attract. You, in turn, are willing to help mentor and teach others.

### Chiron in the Twelfth House

You are brilliant as a servant of the people. Not only do you have a big, caring heart, but you are on the forefront of what is new. This placement challenges you to be selfless. You are most likely to grow through confronting painful limitations and problems. This can include injuries, ill health, incarceration, and prejudice. There is a danger of trying to escape through alcohol or drugs. If you encounter the suffering of people less fortunate than you, your reaction to their plight could be to volunteer your services.

**AstroIDeluxe Chart Interpretation for George Washington****Planets in Aspect****Venus parallel Saturn (Strength: 6.99)**

This aspect makes you serious and responsible. You see a bigger world picture. You can be more mature than are the other members of your family. You could marry an ambitious woman. You will probably be an attentive father. You can gradually develop a heightened political instinct. You can be dedicated to doing what is ethically right. You tend to be well-prepared and self-assured. It can be hard to know you because you maintain a cautious poker face. You might have many talents, including for healing, music, science, politics, writing, or as an athlete or pilot.

**Moon square Pluto (Strength: 6.51)**

This aspect makes you the sentimental and nurturing type, one who cares about people. You could belong to a family that shares your intellectual interests. As part of your job you could nurture a family of like-minded professionals. Many coaches, law enforcement agents, and pilots have this aspect. Your life tends to involve much change. You could change jobs and relationships with regularity. You could have an open marriage. You could express your strong feelings through painting, dancing, or acting. This aspect can expose you to emotional trauma, either in your family or as a victim of crime. If you own animals, this aspect should make you sensitive to their needs. You could be a good doctor, businessman, fighter, athlete, writer, lawyer, or therapist.

**Neptune square BlackMoon (Strength: 6.37)**

This aspect gives you mental sharpness. You are both quick and retentive. This mental sharpness combined with manual dexterity can make you a consistent and talented musician, scientist, or therapist. Many dancers and music composers have this aspect. This is an aspect of discipline and intelligence, but it can also correlate with drug abuse. Everyone has problems in life so don't dwell on them. You can be a fearless risk-taker. Many adventurous explorers and entrepreneurs have this aspect. You are growth oriented and continually challenge yourself -- exploring new fields and reinventing what you do. You put your all into everything that you do. You work hard and you play hard. Communication and people skills are reflected in the frequent occurrence of public speakers, marketing, psychology, and radio/television reporters with this aspect. War correspondent Ernie Pyle who wrote from a human interest point of view had this aspect exact. Men with this aspect tend not to have long marriages or many children. This is an aspect of mixed blessings. The blessings that it gives in the world can be offset by disappointments. It is not about being content and satisfied. Socially, you tend to be outgoing and charming, but you are not necessarily a saint, as many criminals have had this aspect.

**AstroIDeluxe Chart Interpretation for George Washington****Midheaven square Chiron (Strength: 6.35)**

You are not going to go down without a fight. This aspect develops your character. You are a fighter. This aspect puts you in the public arena where you are determined to put up a good fight and do your best.

**Mars contraparallel Ascendant (Strength: 5.17)**

This aspect tends to make you outgoing. It gives you a high energy level. You like to work and can do so tirelessly. You can be shrewd and forceful. You could also be a sharp dresser. You are one of the boys and might use crude language. You can take things personally and get into disputes. You tend to be easy-going except when it comes to money. Popular vocations include psychologist, therapist, painter, pilot, and musician.

**Moon trine BlackMoon (Strength: 4.40)**

You could be devoted to public service. You tend to be a regular guy to whom others can easily relate. You are very aware of your surroundings, with your social antennae constantly picking up information. You might write about your experiences in an off-beat, humorous, or highly original way. You could point out the contradictions and absurdities of life. You do not see the barriers that others see or invent in their minds. The rigidities of the so-called rational world do not constrain you. This aspect gives you insight into the irrational. You know yourself to be such a good guy that you often feel like rewarding yourself, such as with delicious desserts and female company.

**Mars semi-square Jupiter (Strength: 4.18)**

You are a person who actively pushes forward and gets things done in the present, in the here and now. You do not live in the past. You need to find constructive outlets for your energy and aggression. When young, you could be an overweight bully or you could succeed as an athlete. There can be tension with your parents on account of how your mother and father would circumscribe your energies. Rebellion may be part of maturing, but rebellion is an essentially negative act that will not take you as far as going after positive goals. When faced with challenges, you can rise to meet them. You can mature into a hard working man of ideas. You dislike stagnation and boredom. You want to be growing all of the time. You can stand up for a point of view.

## AstroDeluxe Chart Interpretation for George Washington

### **Mercury trine Jupiter (Strength: 3.95)**

*(The Assertive)*

You have big plans which you like to discuss with others. You exchange ideas and receive the support of your friends. Once clear in your goals, you'll have no trouble convincing others that you know what you're talking about and should be given a chance to prove yourself. You are an excellent salesperson or counselor. In either case, you have the attention of others who respect your opinion and enjoy from you a positive output which contributes to your success.

### **Neptune sesquiquadrate Midheaven (Strength: 3.84)**

This aspect makes for politicians, lawyers, public speakers, writers, and fighters. George Washington had this aspect. You could come from an advantaged background and be disciplined, intelligent, and a perfectionist. You are probably a creative nonconformist. As an athlete, you can devise your own idiosyncratic winning techniques. You could do the same in music, art, and other fields. Many engineers and designers have this aspect. You could work in the medical field and learn unconventional techniques for healing. You tend to be a perceptive sponge that retains a diverse set of experiences, skills, and knowledge. You could hold a variety of jobs before you settle into a career. As a performer, you could build great rapport with your audience. Award-winning actors often have this aspect. You tend to substitute trust in yourself and other human beings for dictatorial rules and rigid scripts. You can explore the psychological motivations behind people's behavior. The aspect is found in very few dancers or slender people, so you are not the high-energy type, although you rarely get depressed. You probably love animals. The high rate of dementia for this aspect may relate to a longer than normal life expectancy.

### **Sun sesquiquadrate Pluto (Strength: 3.76)**

It is common with this aspect to come from a large family, to have some shocking or traumatic event occur, and to experience psychic abilities. With this aspect you can apply great technical force and power to your work. You can execute quickly and precisely. The challenge is finding constructive outlets for the energy of this aspect. Many mathematicians, physicists, lawyers, and law enforcement agents were born with it. A lot can depend upon the friends with whom you hang out and the kinds of activities that they suggest. You need to find friends who are not losers, who are not into getting wasted at parties. If you think about it, there are positive, constructive things that you love to do. If there is something that has piqued your curiosity, then take an afternoon to investigate it. Do you need to sign up for classes or can you plunge right in? One of the keys to your getting so much done so quickly is that you tend to have a system that you follow. That is how your mind works. You are capable of identifying an audacious goal and then planning a campaign to achieve it. You could have a range of activities going on simultaneously. With this aspect, you should experience a fascinating life with many changes.

**AstroIDeluxe Chart Interpretation for George Washington****Saturn semi-square Ascendant (Strength: 3.54)**

With this aspect, carrying on a family tradition could be an important part of your life. You could be the focus or agent of family hopes. As a child, you could have been the eldest or an only child who interacted mainly with adults. You could already have a career at an early age. You have broad shoulders and can assume responsibilities that are greater than just your own personal interests.

**Midheaven sesquiquadrate BlackMoon (Strength: 3.53)**

You could do well with a career in the arts, such as fashion design, music, or acting. You can have an optimistic, avant-garde style. You can reinvent the classics. You are good at popularizing. You tend to be charming, unassuming, and quiet. You can meet and befriend other talented people. Your life will probably have its ups and downs, but you are not the type to feel sorry for yourself. You have a strong desire to win and to be socially established. To you money is not a goal in itself but a means to freedom. You can be an outspoken advocate for humanitarian causes.

**Pluto inconjunct Ascendant (Strength: 3.53)**

This aspect makes you an intelligent and self-directed person. A person does not just fall into what are the top statistical careers for this aspect - pilot, musician, psychic, engineer, writer, psychologist, law enforcement agent, and physicist - one must actively pursue these interests. The statistical categories that are least likely to characterize your life are dementia, singer, lawyer, and priest. The contrast between the high number of musicians and the low number of singers indicates that you prefer technical challenges. As long as you do not think that you are invulnerable and can flirt with dark forces, this aspect makes it likely that you will live a long life. Pluto understands math and the principles of economics - it is good at streamlining down to the essentials and eliminating the outmoded or unproductive. In your career, you do not like wasting time. You try to stick to the point and avoid the extraneous and unnecessary. That does not mean, however, that you do not have hobbies, such as painting and dancing, or a sense of humor outside of work. You need human activities that will help you to combat a tendency to depression.

**Neptune semi-square Chiron (Strength: 3.51)**

This aspect increases how loving and spiritual you are. A woman described Nathaniel Hawthorne with this aspect as "a man who combined delicate tenderness to understand the heart of a woman, with quiet depths and manliness enough to satisfy her." People consider you a source of fun and joy. You are very clever and have many interests. You can get under the skin of how things work. You can materialize your ideas into objects. You will not put up with

## **AstroIDeluxe Chart Interpretation for George Washington**

boredom or predictability for long. You tend to rebel when you are told to do something. Freedom of speech is important to you. Depending on the chart as a whole, you could also be troubled, eccentric, and ethereal. You could have to fight a chronic health problem. When this Chiron aspect is close, it is possible that a limitation or an injury could change the direction of your life. Possible interests include music, poetry, painting, photography, health care, drugs, hypnotherapy, and reincarnation. Frequent vocations include architect, doctor, writer, physicist, lawyer, mathematician, priest, astrologer, artist, scientist, poet, and critic. The aspect tends to make you enthusiastic, wealthy, a perfectionist, slender, a pioneer, an activist, disciplined, creative, honest, and steadfast. There is some history of depression and suicide, but the rates of dementia and cancer are low.

### **Neptune trine Pluto (Strength: 2.97)**

This aspect was last seen in the 1700s. It will come into orb again in the year 2082. The aspect is closest in the chart of Samuel Johnson (author, poet, and English lexicographer). Johnson's attempt to organize a school failed, but his more creative work succeeded. Johnson's poem *The Vanity of Human Wishes* focuses on overarching philosophical concepts. His extraordinary memory allowed him to compose the entire 368-line poem in his head, before committing just the first half of each line to paper. Johnson's poem and life affirm what we know about the planet Neptune, which is that Neptune is not about worldly success. Johnson displays a feeling of empathy in his poems. Johnson asserted that the mind is an activity, one that will turn to destructiveness of the self or of others unless it is directed to labor. Statistically, this aspect is found in the charts of religious leaders, mathematicians, artists, doctors, and writers.

### **Ascendant trine BlackMoon (Strength: 2.92)**

You can project a confident and headstrong or cocky image. There is a danger of alcoholism with this aspect. However, you can also be a genuinely nice and popular person who helps others. Your active career will go through many changes; it will have its ups and downs. Golf seems to be a popular hobby. A movie about an amazing runner with this aspect who died in a car crash after losing control was entitled "Without Limits," and that is a good summary of this aspect. Well-earned confidence is a good thing, but overconfidence can be very dangerous. Look up the meaning of hubris.

### **Chiron sesquiquadrate BlackMoon (Strength: 2.88)**

This aspect makes you sensitive to other people. You can be diplomatic and poised under pressure. You have a high level point of view. Fairness and compromise are very important to you. You seek to create a level playing field. You seek to protect the helpless. You could be attracted to a woman from a different international origin. You can learn a foreign language. Exotic or out-of-the-way places can appeal to you. Difficult or esoteric subjects can be attractive challenges. You can take an interest in the welfare of people. You can successfully entertain people and bring them joy. It may take a while for you to come into your own. You might experience a realization as to your true vocation. You will try to live your life to the fullest.

**AstroIDeluxe Chart Interpretation for George Washington****Venus conjunct Saturn (Strength: 2.72)**

*(The Devoted)*

Others may not understand your serious views, but your reserved attitude indicates a desire for a loyalty as unflagging as your own. You will be careful about declaring your feelings until you are reasonably sure of your ground and are satisfied that you can justify or cement differences between you. If you decide that a relationship will not survive the test of time, you will opt to dissolve it without regret, feeling there is nothing substantial to pursue.

**Jupiter sextile Uranus (Strength: 2.56)**

*(The Timely)*

You are usually on the scene when opportunities are presented and prepared to take advantage. It is almost as though you expect the unexpected, rather than receiving the "lucky breaks" that others envy. You complement being "on your toes" with willingness to learn something new and "different" when the occasion arises. Your intuition may cue you to act on possibilities which allow you to grow and expand at your own pace with the confidence to succeed.

**Venus square North Node (Strength: 2.26)**

You could be a combination of tough and vulnerable. You can appeal to people's emotions. Sexuality could play an ambivalent role in your life. If you fool around with addictive drugs, you will pay a price. You can grow to become a charming social host.

## AstroDeluxe Chart Interpretation for George Washington

### Balance of Elements and Modalities

#### Abundant Air

You seem to live for mental exploration. Discovering and communicating the connections between ideas, people, and places is your function in life. Your active mind is good at identifying new frontiers whose basics you quickly master, so that you end up knowing something about almost everything. You have a dispassionate nature that coolly considers the pros and cons of a situation, able to place logic above personal emotion. From your mental viewpoint, emotions look irrational. You make a good negotiator, sales person, communicator, arbitrator, analyst, and information processor. Ideas flow quickly for you. While impersonal and dispassionate, you nonetheless thrive on communication and social interaction. At your best, you strive to understand and accept people, not to change them. Courageously, you adhere to principles. You appreciate culture, structure, and systems.

Your greatest strength is also your weakness, namely too much coolness from placing head above heart. Leaders must be able to follow their hearts without being indecisive or equivocating. And you ignore your real connection to others if you use your mental gifts to coldly manipulate them. Try to avoid isolation by functioning as part of a team in which your logic, analysis, and communication skills are put to good use. Work with others who may be more practical, sensitive, or passionate than are you. Don't keep your good ideas inside, but write them down and communicate them to others.

#### Lack of Fire

You are willing to let flashier individuals take center-stage and lead the way. You are probably unenthusiastic about change and are passive when it comes to creating change through leadership. You may be aggressive in a defensive way, but lack the self-confidence to take the offensive. Lacking the impulsiveness of Fire, you are more likely to be a careful worker and a reliable mate, though you could stand to be less detached and more personally involved with your spouse and family.

A lack of planets in Fire signs can be offset by a Fire sign ascendant or by abundant planets in the houses of Life.

#### Abundant Relationships

With abundant planets in these houses, relationships and communications with others are likely to be central to your life. You can help others by exchanging ideas and making connections between people. You will probably maintain active contact with a wide circle of relatives,

## AstroIDeluxe Chart Interpretation for George Washington

friends and acquaintances. You keep abreast of new information via various media and your friends.

### **Lack of Endings**

You live on the surface of things, afraid to look within at what you really feel and want. Perhaps your position is too precarious or the obligations too great to allow yourself this luxury. You feel forced to maintain your personal status quo. You come across to others as unfeeling. Because personal feelings do not distract you, you might make a good scientist, though be aware that the greatest scientists let intuitive feelings be their guide.
