AstroIDeluxe Chart Interpretation for Elon Musk

Introduction

This report from Halloran Software, *In The Beginning*, draws upon 1441 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

HOUSES: Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

SIGNS: Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

ASPECTS: Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroIDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

AstroIDeluxe Chart Interpretation for Elon Musk

Planets in Signs and Houses

**Aquarius Ascendant***(The Oracle)*

Your distinctive features are your eyes, sometimes the color of the sea, the sky, or both -- one is never sure which. You are a one-of-a-kind person in touch with "something" that gives you special insights into "tomorrow." You don't ask to be understood, but need freedom to explore the horizon. Problems occur in avoiding commitment. You cannot get along without people, since you would have no way to express the compassion you feel for all of earth's creatures.

**Sun in Cancer***(Keynote: I FEEL)*

You are sensitive, nurturing, devoted and caring, but can be moody, petulant, over-emotional and unforgiving. Your attachment to the home stems from an allegiance to a mother-figure. Your interest in food may extend to gourmet cooking as a hobby or a career. You are an excellent business person, with a shrewd and logical view, but tend to keep things to yourself, which is not always wise. If you have no outlet for your feelings, you may make yourself the victim of digestive ills, or prolonged seclusion may cost you the friendship of those who represent security in your life.

AstroDeluxe Chart Interpretation for Elon Musk

Sun in the Fifth House

(The Artist)

You'll get the most out of every moment, because you devote your energy to things that will make you personally happy. If you can involve others in your activities, you expect that you will double your pleasure. Friends may think you impractical because you extend your "Good-time Charlie" philosophy into your work, often choosing a career in the arts which allows you freedom to indulge your bent for fantasy. You prefer relationships that are "fun," but your devil-may-care attitude may preclude settling into a committed partnership. Your motto is: "Do your best, but be yourself!"

Moon in Virgo

(The Spartan)

Your outwardly-cool attitude may cause others to approach you with caution, and make friendship difficult. You are capable of accomplishing a lot, with little to work with. You are not particularly ambitious, but may over-emphasize your limitations. A place in scientific research is possible, where your practical mind and attention to detail can be appreciated. If you are too hard on yourself or others, you can destroy your chances for recognition of your excellent merits. Digestive difficulties may occur if you fret obsessively with no outlet for your frustrations.

Moon in the Seventh House

(The Searcher)

You may never feel complete after you leave the mother-influence until you find a life-partner who fits OR is the opposite of her image. This will depend on the positive or negative programming you received in childhood. If you select a partner in business, you will choose someone as shrewd as yourself. You may enter any partnership when you are nudged by gut-feelings too intense to be denied, or dissolved when conflicts are too dangerous to be ignored.

AstroDeluxe Chart Interpretation for Elon Musk**Mercury in Cancer**

(The Parent)

Your remarkable intuition lets you see the vulnerability of your fellow man, but it may be somewhat narrow in concept. You often depend more upon feelings than rationale to treat issues in an appropriate manner. You may tend to relive childhood experiences, which can make you moody and sometimes reclusive, if the recall is painful. Rather than retreat, learn from experience and consider the consequences of present actions as they may affect your future.

Mercury in the Fifth House

(The Comedian)

Your lively imagination, appealing youthfulness and scintillating conversation make you the center of attention. If you choose a career in the theater, you'll send a ripple of approving mirth through your audience the moment you step onto the stage. You're equally playful in love, so must choose a partner as independent as you who can tolerate an off-again-on-again romance. Once settled, you CAN be as serious as anyone, but isn't playing "Peter Pan" more fun?

Venus in Gemini

(The Inconstant)

Your sense of humor is infectious and your charm undeniable. You are a born traveler and appeal to a wide variety of people with whom you share your multiple talents. Commitment in relationships is as difficult as staying with one job, unless you are the "boss." Whether formally-educated or not, you have a wealth of knowledge to share and a way of expressing yourself that is entirely captivating. One can almost forgive you for being a "world-class flirt!"

Venus in the Fifth House

(The Butterfly)

You possess fairy-gifts: Beauty, popularity -- even riches and fame, but they are as fickle as you, yourself, are capable of being. Don't take your charmed existence for granted. Make the most of your talents by applying them productively. The lessons of your life may not be laughed off as easily as the jealousy you inevitably attract. If you try, you will find yourself in the rags of disappointment, unknown to you when you were the Belle of the Ball!

AstroIDeluxe Chart Interpretation for Elon Musk**Mars in Aquarius**

(The Forerunner)

You focus on the future and see things with amazing clarity, so are apt to be impatient with those who do not have your vision. Your motives are the best -- to do for others what they cannot do for themselves. You are a matchless fund-raiser and know who to approach and what to say to accomplish your missions. You extend this nurturing quality in your personal life. All who recognize your kindness are sure to return the interest and appreciation you deserve.

Mars in the First House

(The General)

You'll be aware from the time you're born of the tremendous power you hold. No task is too great for your dynamic energy to challenge. However, before congratulating yourself, you must recognize you are impulsive, and sometimes lack the patience to finish what you start. Your enormous ego drive will demand you assume responsibility for the actions in your life. Slow down long enough to ask: "How will my choices affect others? Is the result worth the effort?"

Jupiter in Scorpio

(The Investor)

You may manage other people's time and money successfully. Your keen intuition and bent for speculation can help you create your own dynasty. You're apt to over-do or become self-indulgent. Make "moderation" your watchword to avoid unfortunate side-effects which can impair your health and rob you of the rewards of the charmed life you lead.

Jupiter in the Tenth House

(King O' The Hill)

Your supreme self-confidence will take you far in a career. As a public figure, you might try politics, or acting. You usually know what you're talking about, are conscious of your image and try to keep your actions above reproach. Only if you take your success for granted, or over-extend yourself, are you likely to fail in your undertakings.

AstroDeluxe Chart Interpretation for Elon Musk**Saturn in Gemini**

(The Vassal)

Responsibilities of loved ones can limit your outstanding ability to express yourself. You may adopt a life of fantasy to escape becoming hard or bitter. Many writers epitomize your frustrations: Beatrix Potter, Ralph Waldo Emerson and the Bronte Sisters among them. They were visionaries who overcame "self" to share a corner of their indomitable spirits. Your lack of freedom is far less meaningful than the opportunity for self-discipline you will learn to value.

Saturn in the Fourth House

(The Disciplinarian)

You may feel "stuck in a rut" because of a childhood filled with responsibility. Because of this, it is difficult for you to shed feelings you had when you were "stuck at home." At times, you may appear to be cold or too reserved. Others may assume your spartan tastes are a reflection of your deprivation. Upon leaving your family, try to put the past behind you and make a life of your own, unencumbered by the restraints of your formative years.

Uranus in Libra

(The Bohemian)

You have artistic talent and appreciate modern, as well as traditional forms. You are intelligent, ambitious and determined, but may change your goals too often. Your creative imagination and intuitive gifts blend well. Relationships are trying, as you choose unlikely companions. You make enemies because of unusual ideas, independence and your caustic wit. Once your efforts are channeled, you may attract opportunities that will lead to the success you have dreamed of.

Uranus in the Eighth House

(The Artful Dodger)

You're somewhat of a plunger and inclined to involve other people in your investments. You may receive windfalls which encourage you to believe you can exist on "luck," alone. If you are in over your head, you may find yourself losing friends, loved ones and even having to look for a way to avoid debts you cannot repay. You would do better to depend on your own resources for your income, unsteady as that may be, rather to chance risking all and losing.

AstroIDeluxe Chart Interpretation for Elon Musk**Neptune in Sagittarius**

(The Sage)

You have a talent for understanding human nature and an uncanny ability to know what makes people "tick." You are a perpetual student, and a gifted teacher. Your thirst for knowledge will prompt you to travel extensively. Try to remember that you must accept the customs of another country before they will accept you. Your beliefs are unconventional. You will continue to learn by experience and teach in love as did Plato, Socrates and their descendants in spirit.

Neptune in the Tenth House

(The Bewildered)

As if establishing goals for career and initiating a life course were not difficult enough, before you complete your education, you may despair of fitting into ANY role you have chosen. Rather than change WHAT you are doing, try to discover if you are realistic about your potential and the manner in which you apply yourself. If you need the advice of a counselor, choose one who does not deal with abstractions, but can suggest a practical means of achieving success.

Pluto in Virgo

(The Restorers)

You have a rare opportunity of renovating the world in carefully-structured channels when the environment seems at its lowest ebb. Drugs, disease, addictions and crime will no longer be tolerated. You will have a major part in seeing that justice is done. Law-makers, and those who execute the law will be among your peers, as well as some who are willing to educate those who truly desire self-improvement as their contribution to elevate mankind.

Pluto in the Eighth House

(The Rejuvenator)

Your life is one of constant change, as though you are living several lifetimes in one. Your gifts of intuition and an ability to restore to advantage when things fall apart are in your favor. You can usually see beneath the surface of any situation, which gives you a decided edge, but try to avoid circumstances which put someone else in the driver's seat. You can look forward to each transforming experience which usually announces a period of spiritual growth.

AstroDeluxe Chart Interpretation for Elon Musk

Scorpio Midheaven

You will do well in a career which involves your ability to feel out and involve others in a collaborative venture. You are emotionally intuitive, both about potential partners and about the direction of society as a whole, so that you can speak what people are feeling. You yourself may have gone through deep transformations connected to traumatic events. You are comfortable reaching down into the depths of any subject and so make a good researcher or investigator. You are happiest in an occupation which allows you to explore and produce constructive results. Your strength may involve you in a power struggle with authorities until you can achieve a compromise. Your commitment is such that you make a dangerous enemy. Some people with this placement are so inflexible that they stay with a job that they hate.

Power and control will be issues in your life. You have the ability to coordinate the efforts of others in teamwork, handling power tactfully and with concern for the rights of others. Work with others for transformation and improvement, as opposed to maintenance of the status quo, and you will enjoy great success. Selfishness, ruthlessness, and overkill are the negative possibilities of this placement. Try to spread both the effort and the benefits to others.

Occupations consistent with your intense style of work include investigator, researcher, critic, engineer, programmer, mechanic, contractor, wrecker, exterminator, dramatic writer or poet, sex therapist, tailor, musician, entrepreneur, government or large company worker, surgeon, chemist, pharmacist, detective, psychologist, mortician, insurance actuary, artist, or the military. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of Pluto, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

North Node in Aquarius

(The Arrogant)

You demand center stage, but are disappointed if there is little applause for your flamboyant performance. As a member of the audience, you must cheer others for their efforts. With a dual perspective, you may realize that you are part of a larger design, devoid of ego or self-aggrandizement. Release your humanitarian instincts to enjoy the Big Show.

North Node in the Twelfth House

(The Neglected)

You may feel your high ideals set you apart, but are often aware that you are part of struggling humanity. If you are unappreciated, you look inward for answers, and may find a morsel of truth.

AstroDeluxe Chart Interpretation for Elon Musk

But, life requires full participation. In nurturing others, you will realize that we are all one and when the bell tolls, it does, indeed, "toll for thee!"

Chiron in Aries

Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.

You may start life unsure of who you are, wondering about your identity, but you can be anything that you want to be. You have a low-key but competitive personality that will carry you far. You recognize that, while you have to be natural, you also have to be different. The result is that you have a distinct and precise style. You have a trick of getting the maximum of attention with a minimum of fuss. You are a hard worker, but you follow your own path and tend not to observe old-fashioned rules. If your initial career efforts do not pay off, you will adapt and try something else. A strong Chiron with favorable aspects makes it likely that you will be athletic and competitive. With inharmonious aspects, you could be a reformer. You could identify a career in your teen years, only to be blocked from immediately pursuing it. A health-related matter could boost your career. More than most people, you learn the possible ways that you can be from the different mentors and partners whom you attract. You, in turn, are willing to help mentor and teach others.

Chiron in the Second House

Something about your person or body could be distinctive. You may have been frail or have needed corrective surgery when young. Your physical endurance and energy is excellent. You could be a photographic model or be involved with cosmetics or other products for the body. You could create furniture, be a plastic surgeon, or be a sculptor. You might just frequently change your style and hair color. Gratification, of a physical, sexual, or financial nature, is an important part of your life, but in a consciousness-expanding way. You could have a career that somehow involves the reproductive system. You could also excel at managing resources and creating infrastructure.

AstroDeluxe Chart Interpretation for Elon Musk**Planets in Aspect****Venus trine Ascendant (Strength: 7.76)**

You are warm and charming in your dealings with others, and you are willing to make compromises when necessary. You avoid gossiping about others for fear that you will be criticized yourself. Actually, you cannot stand to be criticized or to hear what may be the truth about yourself.

It is not unusual for your circle of friends to include influential people. You make friends easily and try to win their approval through making concessions. You usually do not spend money except on yourself, but if you do buy a gift for someone, you will prefer to deliver it personally.

You would enjoy college life and receiving an education. You are career-minded and socially oriented and seek a partner who is the same. They must earn your respect and should be eager to succeed and acquire the physical comforts of success.

In your love relationships you are frank, open and fun-loving. You need someone who can speak their mind without hesitation and without being redundant or boring. Using a few words to say a lot impresses you. You will strive to be as attractive as possible for your partner.

Saturn opposite Neptune (Strength: 6.27)

You could come from a large family and might have a religious calling. The sportsmanship and camaraderie of athletics or dance can appeal to you. The state of marriage seems to agree with you. You could raise several children. It is hard to say whether the socially conservative influence of Saturn or the progressive influence of Neptune will be stronger in your life. If it will help your community, you can work as a law enforcement professional or, alternately, you could become a priest, pioneer, or activist. If your life goes down the wrong path, do not be surprised if you experience bodily symptoms from depression.

Don't ignore the value of structure, which is as important as your ability to "get there first with the most." You can enlist others in your cause, but must decide whether they are good for a climb, or may fall by the wayside and deter your progress. It may be better to play the executive and administer from the top of the heap!

Pluto contraparallel North Node (Strength: 5.28)

You tend to be considerate of other people's needs, so that people feel safe with you. You are likely to be a protective parent. You could end up customizing your house with innovative features. A liquor bar could be the focal point of your house. You might be able to handle your liquor better than your spouse, which could affect your marriage. Divorce is common for both men and women with this aspect. You can be inventive, but your focus tends to be on people more than technology. You could take an interest in politics.

You are a diplomatic charmer, valued for the friendship you extend and maintain without surrendering your individuality.

Midheaven square North Node (Strength: 5.00)

This aspect tends to make you a social leader. You might conduct yourself as a gentleman because you feel the weight or responsibility of your leadership position. You may feel that you grew up with certain advantages that placed this responsibility upon you. You could also feel that from your superior position you are entitled to callously manipulate and use other people, including women. You do believe in yourself, which gives the persistence that can be needed to

AstroDeluxe Chart Interpretation for Elon Musk

finally open closed doors. You have the potential to see the world from a broad and humanistic viewpoint.

Saturn contraparallel Neptune (Strength: 4.87)

You may have seen things differently from your father. With this aspect, you can work for law enforcement, but you could also feel that you know more than the authorities, and you might be right. Many physicists and religious leaders have this aspect, indicating a desire to peer behind the veil, to get a deeper understanding of the world. You could leave home at a young age. There are no guarantees, but this aspect tends to give a long life.

Mercury square Chiron (Strength: 4.49)

There could be some difficulty involving you and having children. An injury or illness could cause a career change. You could enjoy a sudden change, such as winning the lottery. Your mate could endeavor to educate you. Letters and correspondence could somehow be challenging. You could make yourself sick trying to bring reason to the unreasonable, trying to increase the consciousness of the bigoted and the prejudiced. Be careful that in your drive into the future you do not put yourself above ordinary rules of moral conduct. You could be known for your wit and speaking ability.

Mars parallel Neptune (Strength: 4.38)

This lucky aspect marries courage and enthusiasm with curiosity and a creative vision. It makes you a keen observer. It might take some years of bouncing around before you discover where you can make a difference. You can end up at the forefront of contemporary culture. Trust yourself. Don't give in to social pressures to conform. Like a film director, you have a distinctive vision, which you have the ability to promote. You can get a thrill out of advancing human welfare. place. With this aspect, stay away from alcohol and pain-killers because there is a danger of addiction. Frequent vocations include architect, psychologist, critic, doctor, chef, and marketing professional. You have a tendency towards careful perfectionism and discipline. You could also be a likable character actor, business man, or healing professional.

Sun sesquiquadrate Mars (Strength: 4.13)

You appear to be active, charming, and easy-going. You get along well with other guys as part of a team. You are looking for sources of power. When you hit upon something that works, you will decisively exploit it for all that it is worth. You keep the goodies for yourself and away from competitors. This aspect tends to make you hyper-masculine. The underside is that in private you can be lazy, irresponsible, cunning, and cruel, which my wife says is true of all men, just to different extents. Being a successful man comes with a lot of expectations, which you can resent. Sometimes you surprise your family by just taking off or deciding to do something without consulting them. It is not so much that you are impulsive as that you are quick to make decisions.

AstroDeluxe Chart Interpretation for Elon Musk

reputation for being prickly and antagonistic. The most common occupations with this aspect include athlete, the military, lawyer, scientist, writer, and politician.

Jupiter sextile Pluto (Strength: 3.98)

Jupiter and Pluto take each other to extremes. Although soft-spoken and businesslike in person, the native can become flamboyant and on the wild edge of human behavior. Normal limits do not seem to apply. This is a top aspect for having four or more children. The most common categories are drug abuser, professional fighter, radio/television broadcaster, prisoner, murderer, psychic, psychologist, award-winning actor, adventurer, engineer/mechanic, and criminal. It makes sense that a world-class poker player has this aspect because men with this aspect take big gambles that sometimes make them masters in their field. Many men with this aspect in their biographies study law but then use it as a springboard to something else. You can become impatient and look for new methods that will provide dramatic shortcuts. This aspect is part of the universe's plan, which does not always involve following the rules.

You can be known for flaunting convention and authority. You are passionate, but you express it in a civilized and elegant way. You could succeed as an actor with a nontraditional look. You are cool, cerebral and idiosyncratic. You have real knowledge and could write informative books. You tend to conduct yourself like an aristocrat, such as dressing elegantly even when relaxing. You can have influential friends.

Sun square Uranus (Strength: 3.93)

This aspect does not make it likely that you will be the enthusiastic type, but it does make it more likely that you will become an aviator or pilot. You are driven to overcome obstacles and challenges. Only 5% of Boy Scouts earn the rank of Eagle Scout, but that could be you. You tend to be a thinker and a perfectionist. You could become a priest, a politician, a writer, a singer, or a computer programmer. Your life may seem to be about rising through the ranks. When you have the big picture, you can make reforms. You could enjoy radio, television, or computer work. You can be a pioneering inventor. This aspect is vulnerable to developing dementia, but the best antidote to dementia is to do what you love.

Sun square BlackMoon (Strength: 3.81)

This aspect gives you a quivering intensity and plenty of energy. You enjoy attention. You do have to work for your success - it may not come right away - but you have both the drive and the ability. You are relatively fearless, taking a lot of chances. You probably move fast and talk fast.

AstroDeluxe Chart Interpretation for Elon Musk

Balance of Elements and Modalities

Abundant Air

You seem to live for mental exploration. Discovering and communicating the connections between ideas, people, and places is your function in life. Your active mind is good at identifying new frontiers whose basics you quickly master, so that you end up knowing something about almost everything. You have a dispassionate nature that coolly considers the pros and cons of a situation, able to place logic above personal emotion. From your mental viewpoint, emotions look irrational. You make a good negotiator, sales person, communicator, arbitrator, analyst, and information processor. Ideas flow quickly for you. While impersonal and dispassionate, you nonetheless thrive on communication and social interaction. At your best, you strive to understand and accept people, not to change them. Courageously, you adhere to principles. You appreciate culture, structure, and systems.

Your greatest strength is also your weakness, namely too much coolness from placing head above heart. Leaders must be able to follow their hearts without being indecisive or equivocating. And you ignore your real connection to others if you use your mental gifts to coldly manipulate them. Try to avoid isolation by functioning as part of a team in which your logic, analysis, and communication skills are put to good use. Work with others who may be more practical, sensitive, or passionate than are you. Don't keep your good ideas inside, but write them down and communicate them to others.

Abundant Water

In your case, the heart rules the head. Your emotional drives are strong and you act primarily on the basis of your feelings. Whether your feelings are purely personal, interpersonal, or transpersonal is up to you, but generally you are a life-oriented person who feels keenly and who acts to support your family, friends, and community. You are happiest when you are in a caring relationship with a significant other. That person should be comfortable with the emotional closeness that you bring to relationships, while providing the structure or inspiration that you need. Some of your friends will not be as comfortable with emotional closeness as you are, and you will have to respect their boundaries. You have probably learned over the years how to keep your sensitive nature from being hurt. Don't permanently withdraw, but find the people with whom and the environment in which you can be yourself.

Because of your sensitivity, you easily pick up others' thoughts and feelings. You can anticipate others' needs before they have expressed them. You can usually rely on your intuition when it comes to forecasting the outcome of personal and career decisions. If you decide to use your psychic abilities for healing, learn to let go of the negative feelings that you process from others. Since you are so sensitive, find quiet moments for private introspection in which you can

reconnect with what you feel instead of what others feel. You also find it revitalizing to be around large bodies of water.

You do have a need to stop and think things through before acting. Make the effort to communicate with others who may have a more objective viewpoint or who could see solutions that elude you. You can sometimes be criticized for acting from a purely personal perspective, which you could avoid by learning and respecting society's larger viewpoint. You can be very creative in finding paths to your personal goals. Keep the larger viewpoint in mind and later you will not have to try to rationalize to others why you chose those paths.

Lack of Fire

You are willing to let flashier individuals take center-stage and lead the way. You are probably unenthusiastic about change and are passive when it comes to creating change through leadership. You may be aggressive in a defensive way, but lack the self-confidence to take the offensive. Lacking the impulsiveness of Fire, you are more likely to be a careful worker and a reliable mate, though you could stand to be less detached and more personally involved with your spouse and family.

A lack of planets in Fire signs can be offset by a Fire sign ascendant or by abundant planets in the houses of Life.

Abundant Life

Abundant planets in the houses of life gives you both the energy and the urge to create the future. By your activities, you make the world a better place. You may be somewhat self-centered, but with your crusading spirit you move the world towards the ideals that you envision.

Lack of Substance

You are not the most grounded or practical person. The rules of this material world are not well known to you. Others may admire your dreams, but they could be impossible dreams. You may find it difficult to choose, plan, and work towards a career or vocation.

A lack of planets in the houses of Substance can be offset by abundant planets in Earth signs.

Lack of Relationships

Relating to other people probably plays a minor role in your life. You could remain unmarried, be a loner, or even be an orphan. Your thinking is probably subjective or personal, without the

objectivity that comes from having communicated with many people. Let others teach you by showing you and if they give you any feedback on your thinking, see if you can learn from it.

A lack of planets in the houses of Relationships can be offset by abundant planets in Air signs.

Abundant Mutable

With an abundance of planets in Mutable signs, you adapt easily to changing circumstances. Mentally quick, you adapt like a chameleon to give each what they want, until you are on to the next friend or interest. Life offers a succession of roles to play. Skilled at diplomacy and compromise, you make a good negotiator and appear to be everyone's friend. You actually are other-oriented, rather than self-oriented, and can be so busy meeting others' needs that you lack direction in your own life. Concentrate on finding friends of true worth and value. Be discriminating in your associations, in whom you choose to help. The endless flow from your mind, tongue, and hands will then work to return real value to you, which is what you deserve. You can probably only follow this advice just so far, though, because more than others the Universe sends you people in need, people for whom you are able to make a real difference. The assistance that you provide to the powerless may actually be remembered long after your facile mental output is forgotten. Your activities can also bring an end to institutions that have outlived their usefulness.

Abundant Succedent

An abundance of planets in the succedent houses increases your ability to enjoy life. In turn, you can give others pleasure. You are a basically stable person with strong values, feelings, and attachments. You enjoy working to build the structure of your life. As you gain confidence in your self, you bind others to you with love. You have a strong physical presence.

Abundant Angular

An abundance of planets in the angular houses helps to give you drive and initiative. It makes you active in the external world. Expressing your individuality is important to you. You are probably a leader who enjoys challenges and can get things moving.

Lack of Cadent

A lack of planets in the cadent houses tends to reduce the time that you have to yourself. You may feel that you are always in the limelight or somehow involved with others. This leaves you little time for solitary reflection. The life of a spiritual recluse is not for you. You don't change quickly, but must gradually grow into changes.

Strongest Degree - Cancer 15

Cancer 15: A GROUP OF PEOPLE WHO HAVE OVEREATEN AND ENJOYED IT. A symbol of the inescapable richness of life in any normal manifestation of itself, here given emphasis on the side of the rewards which come to man as a result of his own efforts. There are penalties whenever he attempts to freeze the present as a promise for the future or seeks to overindulge himself in one direction as compensation for the consequences of inadequacy in another, but individuality in its fullness has recurrent and consistent assurance that its potentials will not be dissipated. Keyword: SATIETY When positive, the degree is an effective and smooth demonstration of human competence, and when negative, a self-disintegrating surrender to appetite.
