Mutual Declination Aspects

Arthur's Moon parallel Marilyn's Saturn (Orb: 0° 02')

This aspect is often found between persons of widely different ages or levels of experience. Marilyn tends to discipline Arthur, and this can bring worry, burden, or anxiety to Arthur. Marilyn may be critical of Arthur, and may appear to be cool or indifferent. Marilyn looks to Arthur for understanding and sympathy. If Arthur is feeling discouraged or pessimistic, Marilyn is likely to only make it worse. The best way to handle this aspect is to learn to plan and build projects together. Arthur will appreciate Marilyn's guidance, and Marilyn will find Arthur to be quite flexible. In love and marriage, Marilyn can give Arthur a sense of security (unless of course Arthur is inherently insecure). Marilyn is protective of Arthur and should learn to back off at times. This aspect can make any attachment binding, whether it is a friendship, business relationship or marriage.

Arthur's Sun contraparallel Marilyn's Venus (Orb: 0° 05')

Although no aspects between the Sun and Venus are truly adverse, this one is less harmonious than most. You may have different backgrounds and cultural or social upbringing. Your interests may be very different, as well as your ideas of what

constitutes good fun or recreation. There is much attraction between you, and possibly envy, jealousy and possessiveness as well. If you do not plan time away from each other, you will suffer temporary separations against your will which allow you to miss each other. For the two of you it is very true that "absence makes the heart grow fonder."

Marilyn's Sun parallel Arthur's Saturn (Orb: 0° 08')

Arthur slows Marilyn down and reminds Marilyn of duties and responsibilities and sometimes may be a bit critical. Marilyn encourages and vitalizes Arthur and alleviates worries, fears and negative mental patterns of Arthur. Arthur depends on Marilyn for inspiration and sometimes passes on responsibilities to Marilyn. Marilyn will be tolerant and forgiving of Arthur. In love and marriage, this aspect often occurs between people who have a wide difference in age and/or experience.

Marilyn's Ascendant contraparallel Arthur's North Node (Orb: 0° 11')

You have similar viewpoints on what constitutes appropriate behavior in relationships. Marilyn sees Arthur as a walking example of the perfect mate, according to the current popular social values. Marilyn will be supportive of Arthur's efforts toward personal and spiritual growth.

Marilyn's Moon parallel Arthur's Uranus (Orb: 0° 11')

This is a very stimulating aspect, and between partners in a romantic relationship it indicates an immediate mutual attraction. It arouses romantic feelings in you both, and the time you spend together is very exciting. However, unless there are many other harmonious aspects which bind you, the constant excitement between you may become irritating. Although you may initially be fascinated with each other, the relationship may not be long lasting unless there are other aspects which indicate durability. If the comparison is a good one overall, this aspect will ensure that romance and excitement between you will stay alive long after others have fallen into a rut. If Marilyn is overly sensitive, Arthur's qualities and habits may be upsetting to Marilyn. In marriage this aspect can indicate frequent changes of residence, which could be disturbing to the Moon individual, in this case Marilyn.

Marilyn's Mercury parallel Arthur's Saturn (Orb: 0° 14')

Arthur's effect on Marilyn is much stronger than the other way around. Marilyn can learn much from Arthur, who is probably older or more experienced and has more

wisdom to offer. Arthur can be discouraging and often too critical of Marilyn's ideas, judgment or accomplishments, causing Marilyn to feel inadequate and inferior. Marilyn can encourage Arthur to leave behind negative attitudes or worries, which will help Arthur to grow.

Marilyn's Mars parallel Arthur's Jupiter (Orb: 0° 16')

You have similar aspirations and ambitions and could accomplish a great deal together. You will each be helpful and supportive toward the other, and any association will result in your mutual benefit. The only danger is that your association could promote extravagance and wild speculation in you both. You encourage optimism, ambition and growth in each other and share a love of sports, nature and the outdoors. This aspect is often found between the charts of marriage or business partners.

Arthur's Saturn parallel Marilyn's North Node (Orb: 0° 19')

You have mutual interests regarding political and professional trends. Marilyn will share new insights with Arthur, who will be able to conceive a plan to apply Marilyn's insights in a practical form for your mutual advancement.

Marilyn's Moon contraparallel Arthur's Pluto (Orb: 0° 26')

Arthur has a disrupting effect on Marilyn and may seem contrary. There is more conflict than agreement with this combination. Arthur is aware of Marilyn's most vulnerable areas and will use this knowledge negatively in times of disagreement. In love and marriage there may be serious misunderstandings, resulting in domestic problems. There also may be sexual problems, which would be more disruptive to Marilyn than Arthur.
