

AstroIDeluxe Chart Interpretation for Queen Elizabeth II

Introduction

This report from Halloran Software, In The Beginning, draws upon 1529 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

HOUSES: Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

SIGNS: Contribute feelings or vibrations to "colour" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasises their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

ASPECTS: Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counsellor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesises how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroIDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Planets in Signs and Houses****Capricorn Ascendant**

(The Constrained)

You seem, and may look, older than you are. You tend to hold your head high so it appears you are looking "down your nose" at the world. Your features are usually slender, and somewhat sharp. You have a clear, concise way of speaking with authority that causes others to pay attention. You are a student with a purpose, excellent study habits and are self-disciplined. Because you work hard and expect to succeed, you have a good chance of doing so on your terms.

**Sun in Taurus**

(Keynote: I OWN)

You have deep material and spiritual concerns and are patient, kind, romantic and firm in your resolves. You are also capable of being stubborn, unyielding, self-indulgent, possessive and jealous. You enjoy tangibles that have weight and intrinsic worth, and display your assets and achievements prominently. Your aesthetic hunger makes you a patron of the arts. You will forgive, but not forget an injustice. A need for security can override your integrity, but you will defend your means to achieve an end because you cannot accept yourself if others find you wanting.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II

Sun in the Third House

(The Neighbour)

You are constantly on-the-go and may talk "off the top of your head" -- but you WILL talk. You sometimes enjoy gossiping, because an interaction with people is paramount in your life. Others may not understand your need for habitual conversation, but since you are clever and bright, you are probably well-liked. You excel in writing or debating and are always interested in learning something new. Your suitcase is half-packed and ready for spur-of-the moment travel. If you develop the persistence to complete half the projects you begin, you can count on success as a result of your efforts.

Moon in Leo

(The Prominent)

Everything is a "big deal" in your life. You expand both the negatives and positives and express yourself dramatically. You are a "head-turner," like the attention you attract, are generous with your money and enjoy being thought of as a "big-time spender." Your organisational ability, coupled with your self-confidence and popularity, often places you ahead of your competition in business, though you must watch a tendency to become "bossy." If you are too self-indulgent, you should call upon your natural honesty and recognise it as a fault which may be difficult to overcome.

Moon in the Seventh House

(The Searcher)

You may never feel complete after you leave the mother-influence until you find a life-partner who fits OR is the opposite of her image. This will depend on the positive or negative programming you received in childhood. If you select a partner in business, you will choose someone as shrewd as yourself. You may enter any partnership when you are nudged by gut-feelings too intense to be denied, or dissolved when conflicts are too dangerous to be ignored.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Mercury in Aries***(The Quick Study)*

You "catch on" fast, but are apt to drop ideas as swiftly as you conceive them. Your assertive attitude may put off those who feel threatened by your ability to take charge. You usually go with first impressions and will only change your mind reluctantly, if proven wrong. Your famous temper may flare on occasion, but quarrels are quickly forgotten. You are self-serving, express confidently, and only need to modify your actions to achieve the rewards you desire.

Mercury in the Second House*(The Juggler)*

You can do more than one job, but find it difficult to establish a life-direction. Choose a goal and realistically determine the time it will take to accomplish it. Resolve to finish what you start. Otherwise, you may become a "Jack of All Trades and a Master of None." That would be a great pity because you have valid avenues open to you. Most would lead you to a productive existence of great personal satisfaction culminating in S-U-C-C-E-S-S!

Venus in Pisces*(The Compassionate)*

You often realise the needs of others before they ask your help and are on hand to volunteer your time, money and services for those less fortunate than yourself. Emotions overrule your practicality in most cases and sentimental compassion may override personal relationships. If you are "unlucky" in love, perhaps you should not sacrifice it on the altar of public charity, but also acknowledge the needs of those who care for you and deserve consideration.

Venus in the First House*(The Charmer)*

You'll learn early how to utilise your good looks, sunny disposition and outgoing personality to attract friends and have little trouble getting your own way. Partners will always be important to you, so you should learn to share willingly. Use as your spiritual guide the lesson of St. Francis: "...It is by giving that one receives." Perfect your gift of beauty on your personal universe. There is no better way to use it.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Mars in Aquarius**

(The Forerunner)

You focus on the future and see things with amazing clarity, so are apt to be impatient with those who do not have your vision. Your motives are the best -- to do for others what they cannot do for themselves. You are a matchless fund-raiser and know who to approach and what to say to accomplish your missions. You extend this nurturing quality in your personal life. All who recognise your kindness are sure to return the interest and appreciation you deserve.

Mars in the First House

(The General)

You'll be aware from the time you're born of the tremendous power you hold. No task is too great for your dynamic energy to challenge. However, before congratulating yourself, you must recognise you are impulsive, and sometimes lack the patience to finish what you start. Your enormous ego drive will demand you assume responsibility for the actions in your life. Slow down long enough to ask: "How will my choices affect others? Is the result worth the effort?"

Jupiter in Aquarius

(The Cosmopolitan)

You are truly liberal in your humanitarian views. What some call "idealistic," you practice as a way of life. You sympathise with minority needs and work with the majority to improve mankind. Visionary gifts allow you a glimpse of the future. If you succeed in your efforts to enrich the world, it will be a far better place in which to live.

Jupiter in the First House

(The Bon Vivant)

You love life and life loves you right back! People enjoy your company, and you have plenty of it. Your confidence inspires confidence and your very presence is a lift to the spirits. If you exaggerate truth, it's only because you are expansive by nature and if something is good, you want to make it better -- and, you usually do!

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Saturn in Scorpio**

(The Forceful)

The powerful image you create tempts you to thrust your ideas or will upon others, not always to their benefit -- or YOURS -- but just for a show of strength. Your determination can make enemies and undermine your fine executive abilities. Try to develop the compassion and flexibility inherent in all successful leaders. Otherwise, your effectiveness will be limited. You will be a champion without honour and must look to yourself for any rewards you receive.

Saturn in the Ninth House

(The Thinker)

You probably have the self-confidence usually born of long experience, no matter your age. Your powers of concentration enable you to absorb the essentials of life in great chunks. A career in law may satisfy your sense of justice. However, inherent knowledge may preclude the experience to utilise it. If your viewpoint seems narrow, look for ways to augment it. Like the Bluebird, you may find them waiting in your own back yard.

Uranus in Pisces

(The Medium)

You are an ultra-sensitive who is drawn to the mysteries and will begin to encounter the unusual early in life. You must overcome fears of your unique gifts and extend them through competent teachers and studies of the occult. You may choose to enrol in religions or philosophies that advocate "new thought." You will not always be right, but can subdue feelings of despair. Your real mission is to find ways to use your talents and knowledge to benefit others.

Uranus in the Second House

(The Opportunist)

You are quick to react to sudden windfalls or calamities. Challenges cause you to re-examine your priorities. You are aware that "destiny" plays a hand in your affairs as the result of the course you have set, and that personal evolvment demands change. You are not afraid to adopt an unconventional means of self-discovery or explore the unknown. You may choose a career in science or investigate astrology as a hobby--then make it your profession!

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Neptune in Leo**

(The Actor)

You are "glamour-struck" by the charisma of the theatre. You may choose a career in drama, fashion, design or in some way make the world more beautiful. Your life may suffer from a romantic ideal of what love is. Expectations of marriage should be aired by both parties before entering a formal contract, and adjustments honoured. A "common-law" arrangement will not substitute for a desire to "--live happily ever after", nor satisfy your powerful instincts as a parent.

Neptune in the Seventh House

(The Idolater)

You find it difficult to define the "whys" and "wherefores" of relationships and may question why you have come together. It is usually "something" inside that tells you a partner is your soul-mate -- that you were fated to be together, and are on the same spiritual level, which may or may not be true. You may go into business with or marry your best friend, which is not a bad idea. It is important that you know someone well before making a commitment.

Pluto in Cancer

(The Resentful)

Your family life is in constant flux. Some of it seems without purpose and can cause you to feel a loss of the love you cherish. Strong feelings may indicate that you are in some personal way responsible for the estrangement you sense, whether it is evident to others or not. It is important to find someone older to talk to, particularly in your formative years, who may placate your fears and start you on the road to self-reliance, which is the answer to your problems.

Pluto in the Sixth House

(The Alarmist)

By developing a practical fitness regime early, you may allay your fears that your health will undermine your plans for the future. Resist impulses to follow fads that promise much and deliver little. Also, avoid the tension of seeing yourself at your job in the extreme, as either threatened or indispensable. Otherwise, you may work unnecessarily hard to prevent losing what you have gained. Moderation in all things should insure you a long and productive life.

AstroDeluxe Chart Interpretation for Queen Elizabeth II

Scorpio Midheaven

You will do well in a career which involves your ability to feel out and involve others in a collaborative venture. You are emotionally intuitive, both about potential partners and about the direction of society as a whole, so that you can speak what people are feeling. You yourself may have gone through deep transformations connected to traumatic events. You are comfortable reaching down into the depths of any subject and so make a good researcher or investigator. You are happiest in an occupation which allows you to explore and produce constructive results. Your strength may involve you in a power struggle with authorities until you can achieve a compromise. Your commitment is such that you make a dangerous enemy. Some people with this placement are so inflexible that they stay with a job that they hate.

Power and control will be issues in your life. You have the ability to co-ordinate the efforts of others in teamwork, handling power tactfully and with concern for the rights of others. Work with others for transformation and improvement, as opposed to maintenance of the status quo, and you will enjoy great success. Selfishness, ruthlessness, and overkill are the negative possibilities of this placement. Try to spread both the effort and the benefits to others.

Occupations consistent with your intense style of work include investigator, researcher, critic, engineer, programmer, mechanic, contractor, wrecker, exterminator, dramatic writer or poet, sex therapist, tailor, musician, entrepreneur, government or large company worker, surgeon, chemist, pharmacist, detective, psychologist, mortician, insurance actuary, artist, or the military. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of Pluto, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

North Node in Cancer

(The Regressor)

Your biggest stumbling block is your pride. If you don't receive the respect you feel you deserve, you will distance the love you desire. Learn to give without expectation of rewards and remember the selfless nurturing received in childhood. Offer that same care to others who need it now, if you would receive full value for emotional investments.

North Node in the Seventh House

(The Hero)

You may win every battle, and demand credit for all you do, but without admiration, your victories are hollow. You are essentially self-sufficient, but to achieve happiness must learn to

AstroDeluxe Chart Interpretation for Queen Elizabeth II

share your fortunes, no matter what they have cost you. In sharing with those who are weaker in talent, effort and resolve, you will receive the honours you desire.

Chiron in Aries

Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.

You may start life unsure of who you are, wondering about your identity, but you can be anything that you want to be. You have a low-key but competitive personality that will carry you far. You recognise that, while you have to be natural, you also have to be different. The result is that you have a distinct and precise style. You have a trick of getting the maximum of attention with a minimum of fuss. You are a hard worker, but you follow your own path and tend not to observe old-fashioned rules. If your initial career efforts do not pay off, you will adapt and try something else. A strong Chiron with favourable aspects makes it likely that you will be athletic and competitive. With inharmonious aspects, you could be a reformer. You could identify a career in your teen years, only to be blocked from immediately pursuing it. A health-related matter could boost your career. More than most people, you learn the possible ways that you can be from the different mentors and partners whom you attract. You, in turn, are willing to help mentor and teach others.

Chiron in the Second House

Something about your person or body could be distinctive. You may have been frail or have needed corrective surgery when young. Your physical endurance and energy is excellent. You could be a photographic model or be involved with cosmetics or other products for the body. You could create furniture, be a plastic surgeon, or be a sculptor. You might just frequently change your style and hair colour. Gratification, of a physical, sexual, or financial nature, is an important part of your life, but in a consciousness-expanding way. You could have a career that somehow involves the reproductive system. You could also excel at managing resources and creating infrastructure.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Balance of Elements and Modalities****Abundant Water**

In your case, the heart rules the head. Your emotional drives are strong and you act primarily on the basis of your feelings. Whether your feelings are purely personal, interpersonal, or transpersonal is up to you, but generally you are a life-oriented person who feels keenly and who acts to support your family, friends, and community. You are happiest when you are in a caring relationship with a significant other. That person should be comfortable with the emotional closeness that you bring to relationships, while providing the structure or inspiration that you need. Some of your friends will not be as comfortable with emotional closeness as you are, and you will have to respect their boundaries. You have probably learned over the years how to keep your sensitive nature from being hurt. Don't permanently withdraw, but find the people with whom and the environment in which you can be yourself.

Because of your sensitivity, you easily pick up others' thoughts and feelings. You can anticipate others' needs before they have expressed them. You can usually rely on your intuition when it comes to forecasting the outcome of personal and career decisions. If you decide to use your psychic abilities for healing, learn to let go of the negative feelings that you process from others. Since you are so sensitive, find quiet moments for private introspection in which you can reconnect with what you feel instead of what others feel. You also find it revitalising to be around large bodies of water.

You do have a need to stop and think things through before acting. Make the effort to communicate with others who may have a more objective viewpoint or who could see solutions that elude you. You can sometimes be criticised for acting from a purely personal perspective, which you could avoid by learning and respecting society's larger viewpoint. You can be very creative in finding paths to your personal goals. Keep the larger viewpoint in mind and later you will not have to try to rationalise to others why you chose those paths.

Abundant Fire

You are an active, future-oriented person who is not weighed down by past commitments. You take advantage of new opportunities better than most. Life for you can be a vibrant affair in which you passionately pursue causes, lovers, and experiences. You have the self-confidence to be a leader. Competitive and flamboyant, you have little patience for slow people or unexciting work. When an activity interests you, you can be very generous with your time, energy, and money. Find outlets for your gifts of creativity and intuition.

Watch out for a tendency to exaggerate or to be insensitive to others' feelings. More cautious types may envy and resent your free spirit and competitive nature. You get bored easily and may

AstroIDeluxe Chart Interpretation for Queen Elizabeth II

depend on others to finish the projects that you start. When your warmth is guided by love, wisdom, and positive goals you have the ability to heal and inspire others, but when you focus on your self or lack direction, your short-lived passions can affect others in destructive ways.

Lack of Air

Expressing yourself does not come easily to you. You distrust people who are fast, smooth talkers. It may be easier for you to express yourself nonverbally or in writing than it is through speaking. If you also lack planets in the houses of Relationships, you will find the normal avenues of communication and social learning blocked. Your thinking will be personal instead of detached or rational. With the mind's normal communication channels blocked, you learn primarily from experience. Lacking in the ability to view yourself objectively, you gain self-understanding primarily through feedback from others.

Try to see life less personally, in a more objective way. Take classes and never stop educating yourself.

A lack of planets in Air signs can be offset by an Air sign ascendant or by abundant planets in the houses of Relationships.

Abundant Substance

With abundant planets in the houses of substance, you know your place in the material world. You know how to extract value and give value via your business, work, and career activities. The rules of the world come easily to you. Others admire and depend on your hard work and practical nature. If you get depressed, make time for recreation and family.

Abundant Life

Abundant planets in the houses of life gives you both the energy and the urge to create the future. By your activities, you make the world a better place. You may be somewhat self-centred, but with your crusading spirit you move the world towards the ideals that you envision.

Lack of Endings

You live on the surface of things, afraid to look within at what you really feel and want. Perhaps your position is too precarious or the obligations too great to allow yourself this luxury. You feel forced to maintain your personal status quo. You come across to others as unfeeling. Because personal feelings do not distract you, you might make a good scientist, though be aware that the greatest scientists let intuitive feelings be their guide.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II

A lack of planets in the houses of Endings can be offset by abundant planets in Water signs.

Abundant Fixed

With an abundance of planets in Fixed signs, you have the staying power to complete a project, grow a family, or expand a business. Your strength is what friends notice most about you. You have definite values; you focus your affections on the people and things that are part of your team. Friendships formed over time are important to you. You may be found at the centre of a circle of friends, a large family, a government agency, or a business. You understand the contribution that stability and security make to prosperity and growth. It throws you off-balance when friends are not as reliable as you are or when love and ideals are not part of your life. Concentrate on developing confidence in yourself, a wholesome world for your family or group, and binding others to you with love. If you have a weakness, it is trouble changing or listening when people tell you a better way to do things. You can handle this weakness by empowering your team, as among them will be individuals who are good at reacting to a constantly changing world.

Lack of Mutable

With a lack of planets in the Mutable signs, you probably go your own way in life without caring too much what other people think. You know what you want and see little need to compromise. You lack flexibility and adaptability. You do best when you can establish a pace and stick to it. Leave those sports and activities that require fast reactions and adaptability to others.

Sometimes you say things that offend others, because you are not especially concerned with the feelings or opinions of others. In fact, you sometimes appal your friends with your single-mindedness and lack of sensitivity. Because of your individuality, people who are attracted to change and variety may find you stimulating at first, but after a while might find your predictability to be boring. This is unlikely to keep you from pursuing your path. Your path involves being yourself and changing the world. Just don't insist that others be like you.

A lack of planets in the Mutable signs can be offset by a Mutable sign ascendant or by abundant planets in the Cadent houses.

Abundant Angular

An abundance of planets in the angular houses helps to give you drive and initiative. It makes you active in the external world. Expressing your individuality is important to you. You are probably a leader who enjoys challenges and can get things moving.

AstroIDeluxe Chart Interpretation for Queen Elizabeth II**Lack of Cadent**

A lack of planets in the cadent houses tends to reduce the time that you have to yourself. You may feel that you are always in the limelight or somehow involved with others. This leaves you little time for solitary reflection. The life of a spiritual recluse is not for you. You don't change quickly, but must gradually grow into changes.

A lack of planets in the Cadent houses can be offset by abundant planets in the Mutable signs.
