

AstroDeluxe Chart Interpretation for Britney Spears

Introduction

This report from Halloran Software, In The Beginning, draws upon 1336 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

HOUSES: Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

SIGNS: Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

ASPECTS: Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

AstroDeluxe Chart Interpretation for Britney Spears

Planets in Signs and Houses

**Libra Ascendant**

(The Gracious)

If your mouth is not a Cupid's bow and your teeth need capping, never mind! Your smile can put sunshine into a cloudy day, anyway. You are cordial and courteous under the most trying circumstances and seldom lose your poise. You're a good listener; also a scintillating and intelligent conversationalist. Your weakness is your indecisiveness, but your first choice is usually right, if only you could decide to accept it. Oh well! Nobody's perfect!

**Sun in Sagittarius**

(Keynote: I ASPIRE)

You are self-reliant, ambitious, optimistic and friendly. You may also be sarcastic, self-indulgent, impatient and tactless. Others may see you as irresponsible, and a capricious flirt. The truth is you are acutely aware of human values and enjoy improving potential. You relate well to children, animals and the environment, and find them all fascinating. You avoid commitment, which you feel restricts your freedom to expand. Your bluntness often disguises a compassionate heart, deserving of rewards for your generous contributions to our planet.

AstroDeluxe Chart Interpretation for Britney Spears

Sun in the Third House

(The Neighbor)

You are constantly on-the-go and may talk "off the top of your head" -- but you WILL talk. You sometimes enjoy gossiping, because an interaction with people is paramount in your life. Others may not understand your need for habitual conversation, but since you are clever and bright, you are probably well-liked. You excel in writing or debating and are always interested in learning something new. Your suitcase is half-packed and ready for spur-of-the moment travel. If you develop the persistence to complete half the projects you begin, you can count on success as a result of your efforts.

Moon in Aquarius

(The Individual)

You are not always practical, but are unorthodox and misunderstood by those who do not appreciate that you are a true liberal of rare talent. You cannot be restricted by the bonds of convention or a regulated society. Whatever you do is done with all your heart, but once you have accomplished your purpose, you move on, which may give you a reputation of indifference. Your independence can result in loneliness, though you surround yourself with people and join causes in which you strongly believe. You search for enlightenment to bring you to the state of peace and tranquility you long for.

Moon in the Fifth House

(The Easy-Rider)

You enjoy a child-like lack of responsibility, so may not wish to leave childhood behind. You are likable, but sometimes irresponsible. Theater is a good place to project your emotions. Children identify with the child-in-you, so you are valuable as a teacher. You may be having too much fun to commit to long-term relationships or a demanding career, and must overcome qualities of superficiality and self-indulgence to exercise your highest potential.

AstroDeluxe Chart Interpretation for Britney Spears**Mercury in Sagittarius**

(The Motivator)

You may use your quick mind and powers of speech to uplift and support. You enjoy the role of entrepreneur, but resent being relied on for solutions to problems that are not yours, since their weight impedes your progress. You can lack the resolve it takes to stay on course, or spread yourself too thin, trying to grasp too much at once. Beware that yours is not a life of "too much, too soon" or your later years will be empty of the challenge you love.

Mercury in the Third House

(The Student)

Little escapes your notice. Your acute awareness, coupled with intuitive flashes, gives you an instant rapport with those you contact. You have a lively imagination, and an interest in education and love of words fits you for a career in journalism or some type of public communication. Try not to let restlessness or impatience dilute your ability to present all sides of a picture in honest reporting, which is the stuff from which history is documented.

Venus in Capricorn

(The Austere)

You are extremely aware of social status and chances to improve your position. Your determination and ambition are admired by your business associates. You may marry the "boss's daughter/son". Once committed, you are unswervingly faithful and loyal, but your marriage can be "an arrangement" rather than a love-match. You will make your family proud, but may deprive your spouse or others of affection, due to your emotional nature, which is often severe and unyielding.

Venus in the Fourth House

(The Peacemaker)

You express your desire for tranquility through the beauty you create. Your home will reflect your excellent taste, but you tend to extravagance. You have a talent to transform your surroundings, no matter how humble they seem. If you choose a career in gardening, decorating, or caring for beautiful things, it will pay you well as you continue to demonstrate your special abilities to a sometimes-dreary world.

AstroIDeluxe Chart Interpretation for Britney Spears**Mars in Virgo**

(The Indispensable)

You perform "to the letter" and often to an "nth" degree that is unnecessary. You seem to have unlimited physical resources, take orders well and respect regimen, but may have difficulty in relating to co-workers. In arguments, you express quickly, accurately, and, too often, sarcastically. You are a valuable helpmate in personal relationships, though a need to avoid expressing yourself in a superior manner should be recognized and modified to an acceptable level.

Mars in the Twelfth House

(The Social Worker)

A frustrated desire for recognition may make you feel as though you were fighting a losing battle. You tend to be secretive and hold your troubles within, when the answer to your depression is the antithesis of your feelings. By getting outside yourself and involved in the problems of others, you may find that you are the physician who has healed himself by inspiring hope in those who lack courage to accept a new lease on life, which you both deserve.

Jupiter in Scorpio

(The Investor)

You may manage other people's time and money successfully. Your keen intuition and bent for speculation can help you create your own dynasty. You're apt to over-do or become self-indulgent. Make "moderation" your watchword to avoid unfortunate side-effects which can impair your health and rob you of the rewards of the charmed life you lead.

Jupiter in the Second House

(The Big Spender)

You'll let someone else take the dinner check, but if it's haute cuisine, you don't mind paying for it. You may even spend to impress others, or talk them into investing, but your free-wheeling ways can squander their money. And, you're so cheerful about it, they may not even mind! Your motto is, "If it's there to enjoy, count the pleasure, not the cost!"

AstroIDeluxe Chart Interpretation for Britney Spears**Saturn in Libra***(The Disillusioned)*

Your dreams of a perfect partner may shatter more than once, but you will not give up trying. Somehow, though you possess fine qualities, you don't seem to attract the right people to appreciate them. It is difficult for others to accept your high ideals and you to compromise them. However, though you may feel lonely at times, you will grow to appreciate yourself as someone who can overcome personal unhappiness by helping others profit by your experience.

Saturn in the First House*(The Burdened)*

You were born with the weight of the world on your shoulders and a profound sense of what is proper and what is not. You take life seriously and assume responsibility, but are frequently disappointed when others don't recognize your value. You may have to enlarge your concepts, and grow past a tendency to magnify your difficulties. Discard negativity. Childhood sicknesses may also vanish, releasing you from other inhibitions which have held you back.

Uranus in Sagittarius*(The Diviner)*

You are amazingly accurate in forecasting events or circumstances that come about. You have a good grasp of logic, so are unlikely to exceed your gifts, but use them to research areas that may contribute to the future of mankind. You are unconventional in your beliefs, fearless in your concepts, and may adopt philosophy rather than religion as a guideline. You should introduce prudence into your restless nature to create wisdom you may share with others.

Uranus in the Third House*(The Chameleon)*

Your ingenious mind keeps you alert to pressures to adapt yourself to your surroundings and find ways of fitting in. Life is an adventure with new ways open at every turn of the road. You are like an explorer, never denying that anything is possible and delighted to discover the unusual. You may lack a basic security, but get the most out of staying flexible--a perpetual student, open to new experiences as part of your development, that keep you young at heart.

AstroDeluxe Chart Interpretation for Britney Spears**Neptune in Sagittarius**

(The Sage)

You have a talent for understanding human nature and an uncanny ability to know what makes people "tick." You are a perpetual student, and a gifted teacher. Your thirst for knowledge will prompt you to travel extensively. Try to remember that you must accept the customs of another country before they will accept you. Your beliefs are unconventional. You will continue to learn by experience and teach in love as did Plato, Socrates and their descendants in spirit.

Neptune in the Third House

(The Story-teller)

Your talents do not end with being a superb raconteur. You can embellish the simplest thought with fascinating details worthy of publication. You may also have a gift of E.S.P. Your aptitude with electrical devices fits you for a successful career in communication, but you cannot depend on potential, alone, to accomplish your goals. You must first define them specifically; then build a firm foundation on which to base the application of your skills.

Pluto in Libra

(The Rational)

As peacemaker, it is second-nature to act as liaison in fostering partnerships that contribute to world-harmony. Your high intellect and demand for justice may place you in public service where you can aid worthy causes by your involvement. Your love of truth may influence big business, where deceit will be overcome with honor. On an individual level, all this may be accomplished by setting an example through the simple amenities you practice every day.

Pluto in the First House

(The Powerful)

You are a force to be reckoned with, and are determined to make your mark on the world. You seem invincible because you strengthen your resolves in the face of adversity. Understanding yourself is essential to your success, or you cannot understand the needs of others. You may limit your talents by serving yourself, alone. As with most people given power, you must tithe your strength to pay your debt to the universe, or it may be turned against you.

AstroDeluxe Chart Interpretation for Britney Spears

Cancer Midheaven

You will be attracted to a career which allows you to maintain strong family ties. A career which allows you to be nurturing or productive will give you emotional and creative satisfaction. You are good at sensing and supplying the needs of the public. Security is important to you. It can cause you to value money for its own sake rather than for what it will buy. Recognize that security also comes from loyalty and honesty in your business relationships. You are capable of making personal sacrifices in order to nurture the growth of those with whom you work.

Although you are good at switching careers because of your good sense of timing, avoid an indiscriminate, profligate lifestyle which would leave you with no permanent home base or relationship bonds. You need to have a home of your own and a settled existence. If you were the proprietor of a little shop, this could be a second home for you.

Occupations consistent with your nurturing style of work include home- or family-oriented businesses, restaurant owner or manager, real-estate broker, jobs connected with fluids or the public, politician, teacher, counselor, manufacturer, musician, entertainer, dancer, art dealer, advertiser, marketer, nurse or doctor. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of the moon, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

North Node in Cancer

(The Regressor)

Your biggest stumbling block is your pride. If you don't receive the respect you feel you deserve, you will distance the love you desire. Learn to give without expectation of rewards and remember the selfless nurturing received in childhood. Offer that same care to others who need it now, if you would receive full value for emotional investments.

North Node in the Tenth House

(The Oppressed)

You may or may not resent heavy obligations forced on you by family demands at an early age. Yet, as you grow, you will find you INVITE the problems of others, and each you solve helps you mature into a worthwhile human being. No one is better equipped than you to handle whatever you must. Savor your strength and think what you might have become without it.

AstroDeluxe Chart Interpretation for Britney Spears

Chiron in Taurus

Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.

You have a strong sense of values, of right and wrong. You may have experienced poverty, illness, injury, sexual or social discrimination, or other limitations, but the struggle to overcome these barriers and limitations drives you forward. You sympathize with and try to help the unfortunate when you can. If there is a secret to your career success, it is that you are steady, consistent, and dependable. You may not always be brilliant, but you have a habit of consistently putting one foot in front of the other, which eventually results in a long string of achievements. All of your experience, combined with a detailed memory, makes you good at navigating the real world. You live to the fullest and should end up with many interesting life stories, to which others look forward to hearing.

Chiron in the Eighth House

Increased consciousness will come through problems involving sex, death, physical fitness, financial affairs, childbirth, and very basic facts of life. With this house's emphasis on the body, you could be an athlete, dancer, stuntman, martial artist, or a mime. You have physical and vocal power. You project a captivating intensity. You rely heavily on instinct and intuition. You could be interested in health food and conscientious about working out to stay in shape.

This aspect increases your ability to stay focused. You tend to be strong and independent, perhaps more so than your husband. Others appreciate your feisty directness. You are curious about the world and could stick your finger into a lot of pies. Unfortunately, that can get you involved with alcohol and drugs, from which you do have the self-discipline to extract yourself. You can be efficient at controlling and organizing. Your efficiency means that you can make a little go a long way. You might not cook, but your house is neat. You are capable of living an advanced lifestyle that is not traditional for a woman. You tend to have a sculpted beauty that never goes away. The top vocations with this aspect are coach, athlete, actress, astrologer, physician, lawyer, and singer. There are increased risks of dementia and cancer with this aspect, so guard your health.

Venus conjunct South Node (Strength: 6.30)

This aspect gives you a sense of humor, enthusiasm, personal warmth, and social poise. You follow your own path in life, not necessarily the life mapped out by your parents. Attractive and feminine, you could pursue dance, modeling, or public relations. The excitement of social involvement attracts you. With outer planet aspects to Venus, you could engage in social work or the law. Especially with a harmonious Neptune aspect, you could have talent for painting as a hobby.

Mars square Neptune (Strength: 5.49)

(The Smoke Screen)

You often deal from weakness instead of the real strength you possess, or hide behind the mask of a bully or someone too idealistic to be practical. You fear if others see the "real" you, they will not appreciate your very worthwhile qualities and take advantage. Stop playing games if you wish to succeed in relationships. Decide to face issues honestly, or enlist the proper support to assist you over the hurdles and keep you on the straight course you must travel to achieve success.

Venus square Pluto (Strength: 5.30)

This is an aspect of precocious development. It increases your depth, complexity, and creativity, which can be of an avant-garde or exploratory nature. You tend to be enchanted by the mystery

You can figure out a system that puts you on top.

Pluto square North Node (Strength: 4.80)

You could be worldly wise at a young age. This aspect puts your mind in touch with the big picture, keeping you mentally sane. Your life, however, could involve more than its share of pain and controversy. When drug abuse, alcohol abuse, divorces, and criminality appear high on the frequency list for an aspect, those are indicators of mental pain. A high incidence of obesity with this aspect is also an indicator of using food to manage emotional pain. Another drawback is that this aspect has a high risk of cancer. On the positive side, you are good at remaking and transforming whatever you are part of. You can create your own distinctive look. However, medical technology such as breast implants can break and hurt you. So can addictive drugs. Since this aspect involves more than your share of health challenges, you should make an extra effort to stay fit. You can work to modernize and popularize a specialized field. You can exploit

AstroDeluxe Chart Interpretation for Britney Spears

new technology in your work and as a way of becoming known to the public. You prefer to create striking and compact works of excellence, as compared to work that might be more diffuse, inflated, and perhaps mediocre. You could have a striking voice. You can play a variety of roles, from soft and cooperative to hard, calculating, and tough. Your father can be a source of stability for you while he lives, although you may feel betrayed when he dies. Try to get as much education or training as you can -- it will help you to be more in control in your life, not so dependent on others, not so easily overwhelmed. You may have started work early or experienced difficulty in your childhood. Even in your old age, you should still be energetic. You could challenge restrictions. To you nothing is forbidden or hidden. What makes you so quick to act is that you give your intuitive self permission to act, permission to be in charge. You are emotionally truthful. As a child you were shy and respectful, but with keen social awareness. You have little natural respect for boundaries or limits. You have opinions about everything, often ahead of your time.

You have a talent for bargaining and making deals, which can help you in business or politics. You have a good sense of humor. You love to play hard and you love to work hard. You become successful after you pay your dues through learning and education. You can enter and win prizes in competitions.

You express your opinions and ideas well, and may preface each sentence with "I", since your focus is on yourself. If you are promoting your interests commercially, you will get your point across, but should listen to the views of others to enhance your chances of success. You enjoy travel and meeting with people to exchange ideas. You are a natural teacher. If you show a flair for writing, voicing your opinions may be useful and is often the mark of a successful columnist.

Even if you have some physical limitation, you can be an outstanding athlete, displaying creativity and spontaneous improvisation. You are intelligent and highly coordinated. Hockey player Wayne Gretzky with this aspect said, "I skate to where the puck is going to be, not where it has been." Chiron can relate to healing and it is interesting that Wayne Gretzky's recuperative abilities tested much higher than those of any of his teammates. His career is partially but not entirely explained by all the hours that he put into hockey when he was young. In your career you could make innovations relating to movement or

AstroDeluxe Chart Interpretation for Britney Spears

transportation. You are flirtatious and should have many possibilities to choose from. If Mars has challenging aspects, there is a danger of marrying an angry, abusing spouse, from whom you should immediately separate. You have plenty of courage and can make it your business to help the unfortunate.

Neptune sextile Pluto (Strength: 2.08)

This aspect heightens the higher mind and awareness. You are unlikely to lead a narrow or sheltered life. You have a broad viewpoint. You explore and ask questions.

Balance of Elements and Modalities

Abundant Fire

You are an active, future-oriented person who is not weighed down by past commitments. You take advantage of new opportunities better than most. Life for you can be a vibrant affair in which you passionately pursue causes, lovers, and experiences. You have the self-confidence to be a leader. Competitive and flamboyant, you have little patience for slow people or unexciting work. When an activity interests you, you can be very generous with your time, energy, and money. Find outlets for your gifts of creativity and intuition.

Watch out for a tendency to exaggerate or to be insensitive to others' feelings. More cautious types may envy and resent your free spirit and competitive nature. You get bored easily and may depend on others to finish the projects that you start. When your warmth is guided by love, wisdom, and positive goals you have the ability to heal and inspire others, but when you focus on your self or lack direction, your short-lived passions can affect others in destructive ways.

Abundant Air

You seem to live for mental exploration. Discovering and communicating the connections between ideas, people, and places is your function in life. Your active mind is good at identifying new frontiers whose basics you quickly master, so that you end up knowing something about almost everything. You have a dispassionate nature that coolly considers the pros and cons of a situation, able to place logic above personal emotion. From your mental viewpoint, emotions look irrational. You make a good negotiator, sales person, communicator, arbitrator, analyst, and information processor. Ideas flow quickly for you. While impersonal and dispassionate, you nonetheless thrive on communication and social interaction. At your best, you strive to understand and accept people, not to change them. Courageously, you adhere to principles. You appreciate culture, structure, and systems.

Your greatest strength is also your weakness, namely too much coolness from placing head above heart. Leaders must be able to follow their hearts without being indecisive or equivocating. And you ignore your real connection to others if you use your mental gifts to coldly manipulate them.

AstroDeluxe Chart Interpretation for Britney Spears

Try to avoid isolation by functioning as part of a team in which your logic, analysis, and communication skills are put to good use. Work with others who may be more practical, sensitive, or passionate than are you. Don't keep your good ideas inside, but write them down and communicate them to others.

Lack of Water

For you the world of feelings may be terra incognita. Close interpersonal relations, which require the expression of feelings, and empathy for others' feelings, do not come naturally or easily for you. You have difficulty putting yourself in someone else's shoes in order to feel what they feel. You will learn how to deal with life in a tough, mental sort of way. People looking for someone to empathize with them should not come to you. Those people who are comfortable with you are not looking for emotional closeness. It's not that you don't have emotions and feelings, but they do not come out easily in your relationships. If you are an artist, they may come out in your art. You probably take refuge from the difficulty of forming emotional connections by concentrating on intellectual, practical, or inspired activity. Your best companions would be those who are able to inhabit these realms with you, but who are also in touch with their feelings. They can help you to contact your own feelings and teach you to respect and honor other people's feelings.

A lack of planets in Water signs can be offset by a Water sign ascendant or by abundant planets in the houses of Endings.

Lack of Earth

You may be so focused on the "bigger picture" that you have difficulty managing the many details of life. Balancing your checkbook or leaving your bedroom clean may seem beyond your abilities. Other tasks may be important, but you find it hard to concentrate long enough to complete them. Knowing your own lack of concentration and self-discipline, you may cling to established routines because you know that you are able to do important things through force of habit. If you do not flit from job to job, you could hold onto a job or a relationship for too long because you do not trust that you will be secure without it. Your lack of real world perspective may make it hard for you to distinguish that which really matters from that which is unimportant, so that you sometimes focus on small things while leaving the really big things undone. You may say that you care about money, but unless you have abundant planets in the houses of Substance, you will not execute a detailed plan to get it. If you can avoid driving them crazy, enlist the help of those more grounded than yourself in order to turn your inspirations into reality.

A lack of planets in Earth signs can be offset by an Earth sign ascendant or by abundant planets in the houses of Substance.

AstroDeluxe Chart Interpretation for Britney Spears

Abundant Relationships

With abundant planets in these houses, relationships and communications with others are likely to be central to your life. You can help others by exchanging ideas and making connections between people. You will probably maintain active contact with a wide circle of relatives, friends and acquaintances. You keep abreast of new information via various media and your friends.

Abundant Life

Abundant planets in the houses of life gives you both the energy and the urge to create the future. By your activities, you make the world a better place. You may be somewhat self-centered, but with your crusading spirit you move the world towards the ideals that you envision.

Lack of Substance

You are not the most grounded or practical person. The rules of this material world are not well known to you. Others may admire your dreams, but they could be impossible dreams. You may find it difficult to choose, plan, and work towards a career or vocation.

A lack of planets in the houses of Substance can be offset by abundant planets in Earth signs.

Lack of Endings

You live on the surface of things, afraid to look within at what you really feel and want. Perhaps your position is too precarious or the obligations too great to allow yourself this luxury. You feel forced to maintain your personal status quo. You come across to others as unfeeling.
