

AstroIDeluxe Chart Interpretation for Britney Spears

Introduction

This report from Halloran Software, In The Beginning, draws upon 1336 paragraphs which interpret the places of the planets at the time of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

HOUSES: Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

SIGNS: Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

ASPECTS: Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. AstroIDeluxe has a Planet Strengths graph that calculates the respective power and harmony of all the planets in your chart.

Cancer Midheaven

You will be attracted to a career which allows you to maintain strong family ties. A career which allows you to be nurturing or productive will give you emotional and creative satisfaction. You are good at sensing and supplying the needs of the public. Security is important to you. It can cause you to value money for its own sake rather than for what it will buy. AstroIDeluxe Chart Interpretation for Britney Spears**Second House Ruler Sign and House****The Second House**

The Second House relates to energy flowing into the physical structure of your private self. This includes sense impressions, food, possessions and money. Scorpio is on the cusp of this house, so it is ruled by both Mars and Pluto. Mars in Virgo is disposed by Mercury. Pluto in Libra is disposed by Venus.

Mars in Virgo

(The Indispensable)

You perform "to the letter" and often to an "nth" degree that is unnecessary. You seem to have unlimited physical resources, take orders well and respect regimen, but may have difficulty in relating to co-workers. In arguments, you express quickly, accurately, and, too often, sarcastically. You are a valuable helpmate in personal relationships, though a need to avoid expressing yourself in a superior manner should be recognized and modified to an acceptable level.

Pluto in Libra

(The Rational)

As peacemaker, it is second-nature to act as liaison in fostering partnerships that contribute to world-harmony. Your high intellect and demand for justice may place you in public service where you can aid worthy causes by your involvement. Your love of truth may influence big business, where deceit will be overcome with honor. On an individual level, all this may be accomplished by setting an example through the simple amenities you practice every day.

Mars in the Twelfth House

(The Social Worker)

A frustrated desire for recognition may make you feel as though you were fighting a losing battle. You tend to be secretive and hold your troubles within, when the answer to your depression is the antithesis of your feelings. By getting outside yourself and involved in the problems of others, you may find that you are the physician who has

healed himself by inspiring hope in those who lack courage to accept a new lease on life, which you both deserve.

Pluto in the First House

(The Powerful)

You are a force to be reckoned with, and are determined to make your mark on the world. You seem invincible because you strengthen your resolves in the face of adversity. Understanding yourself is essential to your success, or you cannot understand the needs of others. You may limit your talents by serving yourself, alone. As with most people given power, you must tithe your strength to pay your debt to the universe, or it may be turned against you.

Second House Ruler and Dispositor Aspects

Mars square Neptune (Strength: 5.49)

(The Smoke Screen)

You often deal from weakness instead of the real strength you possess, or hide behind the mask of a bully or someone too idealistic to be practical. Decide to face issues honestly, or enlist the proper support to assist you over the hurdles and keep you on the straight course you must travel to achieve success.

Mars trine Venus (Strength: 4.17)

(The Union)

You are physically attractive and attracted to others who project their sexuality in a positive manner. Your pairings are intense, you seldom let them get out of the balance that makes for harmonious relationships. His career is partially but not entirely explained by all the hours that he put into hockey when he was young. In your career you could make innovations relating to movement or transportation. You are flirtatious and should have many possibilities to choose from.
