System of Dignities: Dorotheus Ptolemy Omar Tiberiac

Terms: Egyptian Chaldean Ptolemy PoF: Ptolemy Arabs Houses: Porphyry

STAGE 1

We can see that from the planets there are 3 that have 3 or more ruling powers in the 3 'day' places- (Sun, Asc and the Syzygy-conjunction). Saturn, Jupiter and Venus.

From these 3, Saturn is, without question, the Ruler of the Sect of the Birth, that is the Day-Sect (Ο της αιρεσεως Οικοδεσποτης)

STAGE 2

The next is to consider the house positions of the luminaries and of these planets who jump over the barrier of 3 dignities in the three day-centers. Only the Sun, Saturn and Venus continue.

Here is used the Porphyry house system with 5 degree cusps-offset.

STAGE 3

Ptolemy says that the planet, candidate-hyleg, must be strong also in the other sect (the nocturnal sect in this case). In the 3 centers of the Night- Moon, PoF and Syzygy-opposition- the candidate hyleg should gather at least 2 rulerships. Venus and Saturn jump over again.

STAGE 4

Here the invisible (combusta) planets are disqualified. Venus and Saturn are visible.

STAGE 5

Here are shown the candidate-hylegs who have made it so far.

STAGE 6

Ptolemy says that a planet should be in more powerful position, by house and zodiac, to be preferred over a luminary.

Being in the 10th house- the most powerful (acc. to Ptolemy) house- makes Saturn inevitably the Hyleg- the star from where the soul of Hitler has come to this world.

(Stage 7 is if there is no clear winner in Stage 6)
